CONFIDENTIAL

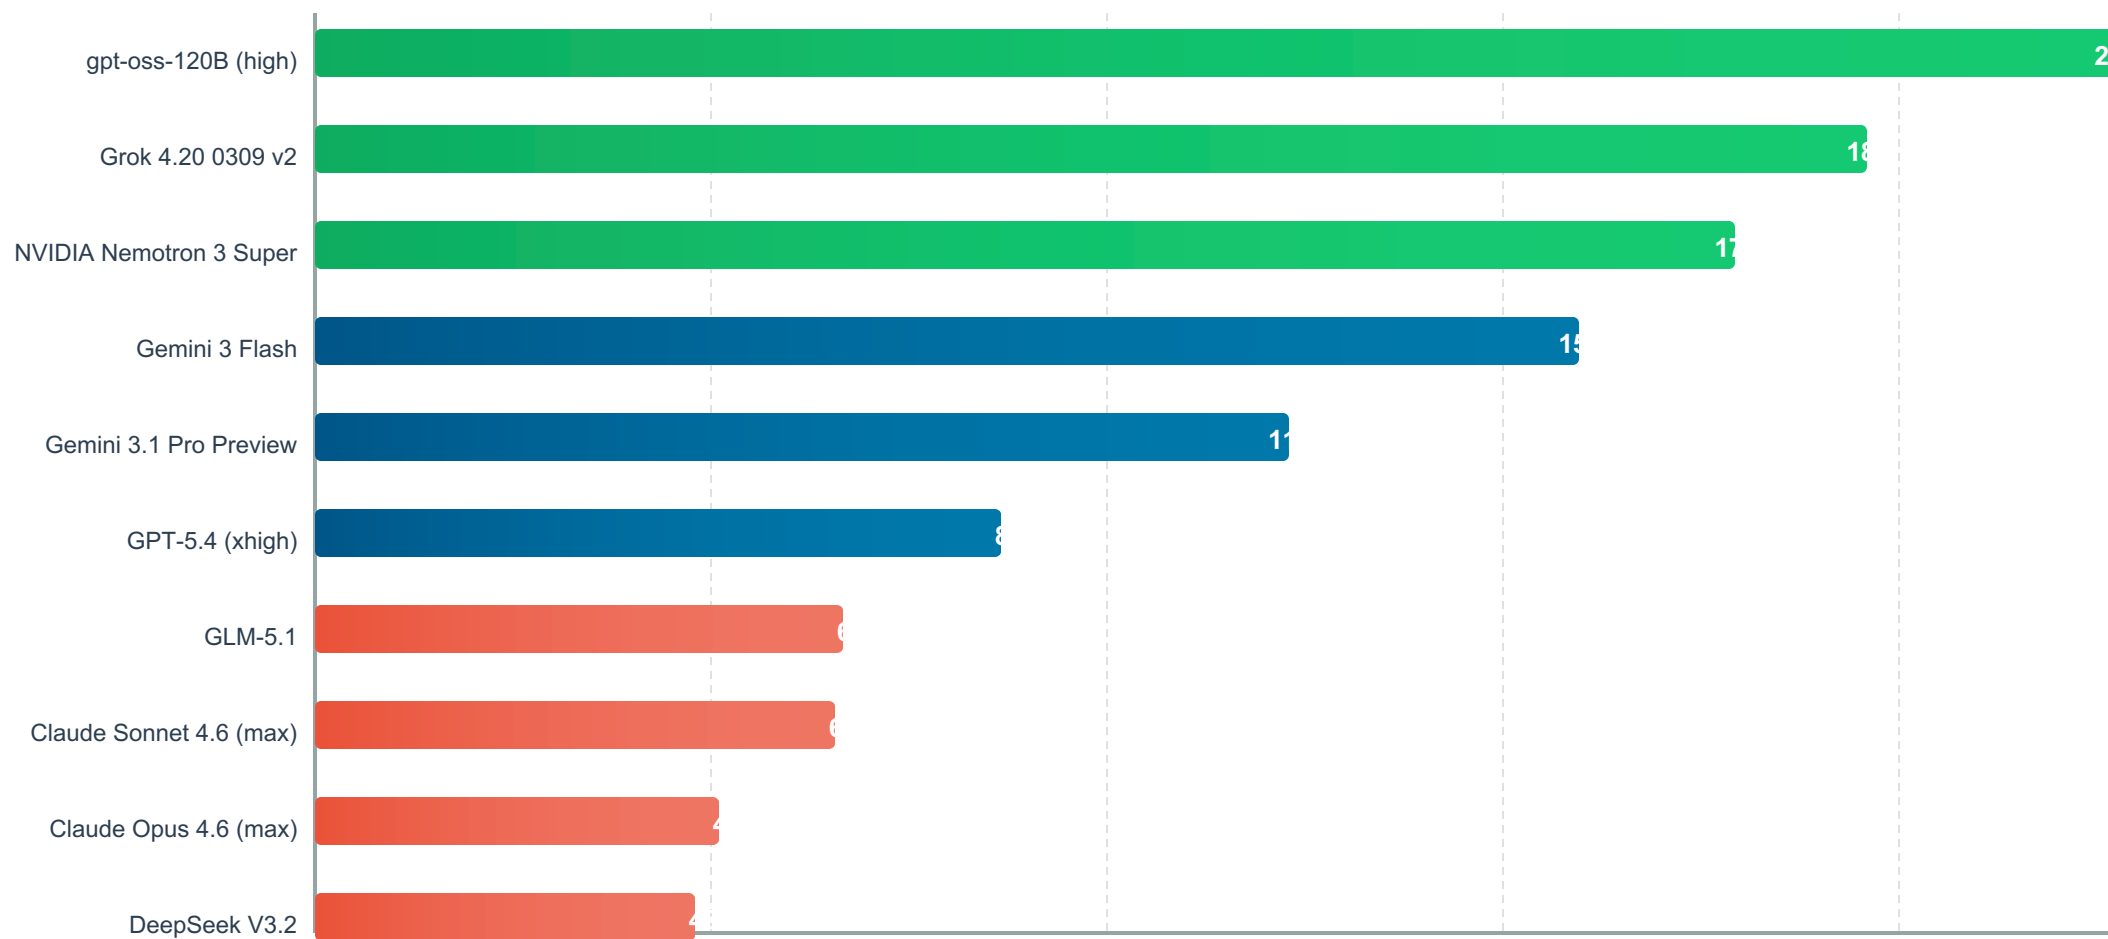

KEY INSIGHT

Two models tie at 57; the spread from top to bottom is 57-to-33. Open-weight models occupy the mid-tier.

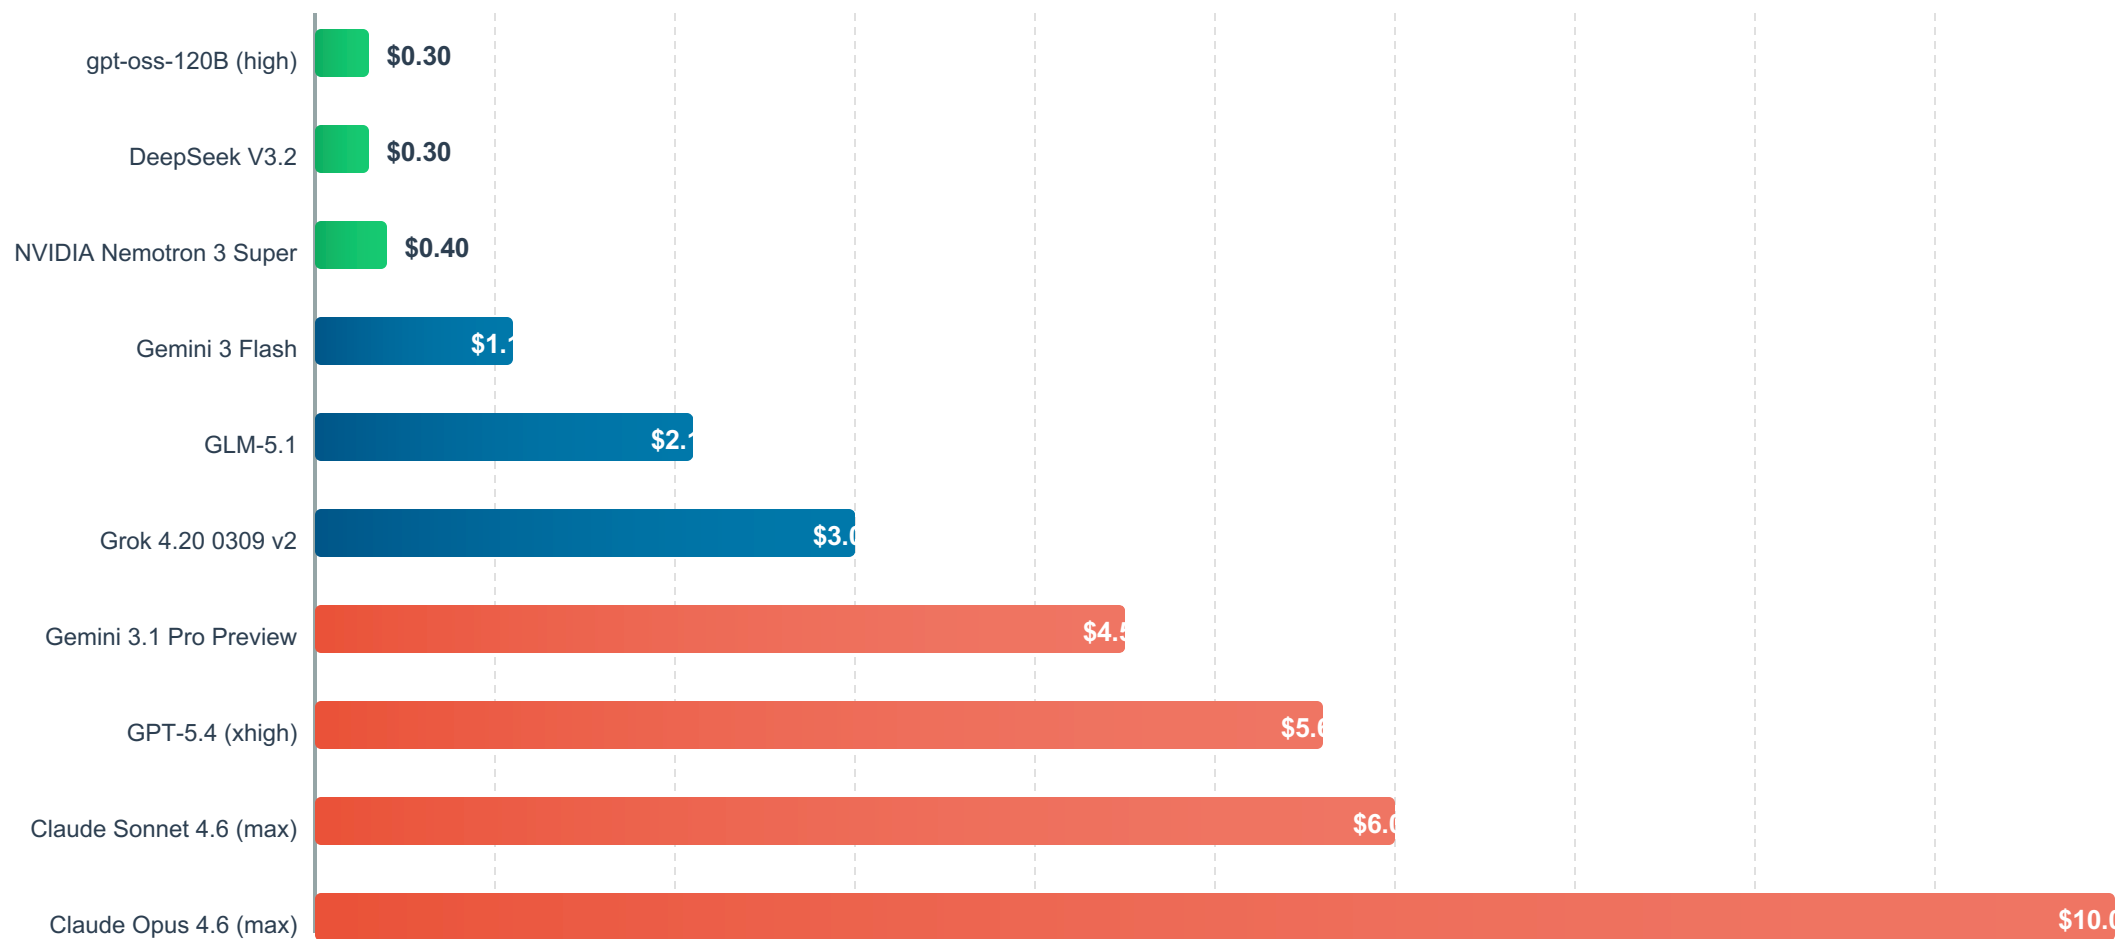

KEY INSIGHT

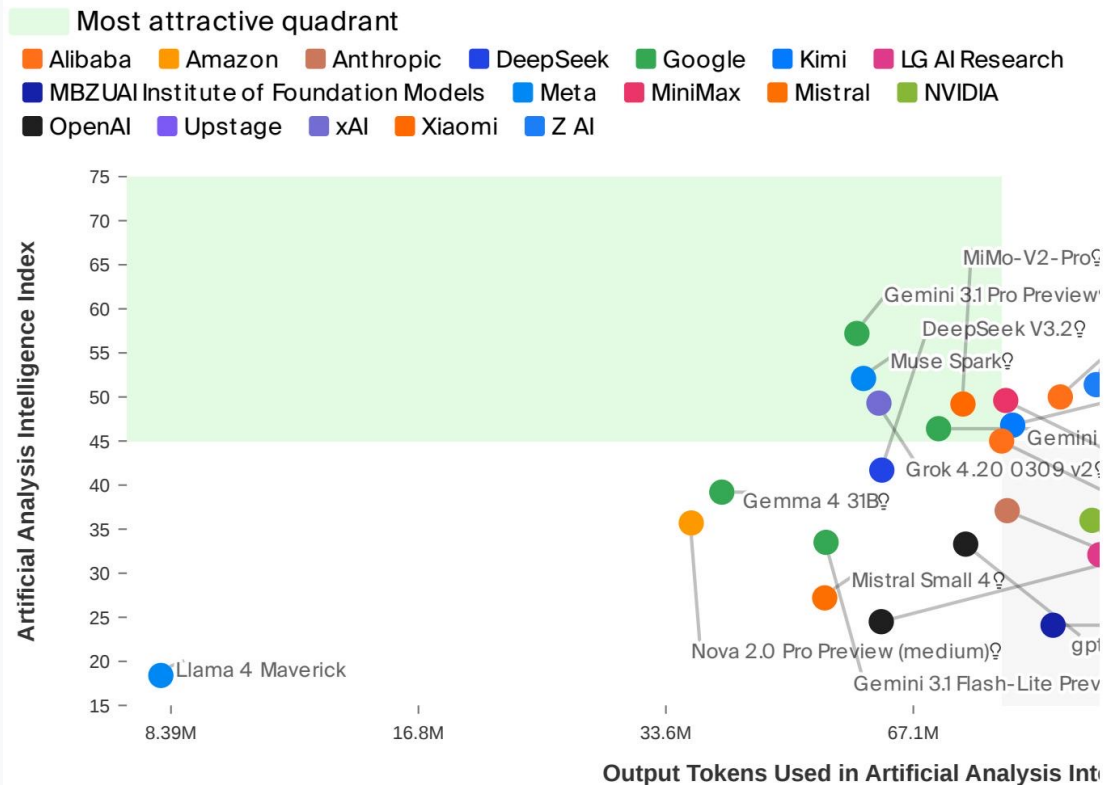

Open-weight models dominate throughput. The fastest model is 4.7x quicker than the slowest — and inversely correlated with intelligence.

KEY INSIGHT

A 33x spread separates the cheapest from the most expensive. Gemini 3 Flash offers compelling mid-range value at \$1.10.

Intelligence Index vs. Output Speed

Higher-right is ideal; no model occupies that quadrant.

Proprietary vs. Open-Weight

Summary comparison across all models

Category	Avg Intelligence	Avg Speed	Avg Price
Proprietary	55	91	\$5.12
Open-Weight	44	125	\$0.78

Key Takeaways

Open-weight models are 6.6x cheaper on average

Open-weight models are 37% faster on average

Proprietary models lead intelligence by 11 points

No single model dominates all three dimensions

STRATEGIC IMPLICATION

The choice between proprietary and open-weight is a tradeoff: pay more for intelligence, or save cost and gain speed with open models.

Key findings from benchmarking 11 frontier models across intelligence, speed, and cost.

01 INTELLIGENCE

Gemini 3.1 Pro and GPT-5.4 tie at **57**— a 6-point lead over the next tier. GLM-5.1 (open-weight) reaches **51**, just 6 points behind.

02 SPEED

gpt-oss-120B leads at **218 tokens/s**— 4.7x faster than Claude Opus 4.6 (46). Open-weight models dominate throughput.

03 COST

A **33x gap** separates cheapest (\$0.30) from most expensive (\$10.00). Open-weight models are 6.6x cheaper on average.

04 TRADEOFFS

No model wins on all three axes. The intelligence-speed-cost frontier forces explicit tradeoffs: choose proprietary for peak intelligence, or open-weight for cost efficiency and throughput. Gemini 3 Flash (\$1.10) offers the best middle ground with 52 intelligence and 153 tokens/s.

05 RECOMMENDATION

For **maximum intelligence**: Gemini 3.1 Pro or GPT-5.4 (57).
For **best value**: Gemini 3 Flash — 52 intelligence at \$1.10.
For **highest throughput**: gpt-oss-120B at 218 tokens/s, \$0.30.
For **open-weight + strong IQ**: GLM-5.1 at 51, \$2.10.

Model Quick Reference

Model	Provider	Type	Intelligence	Speed (t/s)	Price (\$/M)	Best For
Gemini 3.1 Pro Preview	Google	Proprietary	57	118	\$4.50	Peak IQ
GPT-5.4 (xhigh)	OpenAI	Proprietary	57	83	\$5.60	Peak IQ
Gemini 3 Flash	Google	Proprietary	52	153	\$1.10	Best Value
GLM-5.1	Zhipu AI	Open-Weight	51	64	\$2.10	Open + IQ
