# 11 Industries × 6 Agent Types: A Taxonomy of Enterprise Gen AI

| INDUSTRY VERTICAL                       | CUSTOMER | EMPLOYEE | CREATIVE | CODE | DATA | SECURITY |
|-----------------------------------------|----------|----------|----------|------|------|----------|
| Automotive & Logistics                  |          |          |          |      |      |          |
| Business & Professional Services        |          |          |          |      |      |          |
| Financial Services                      |          |          |          |      |      |          |
| Healthcare & Life Sciences              |          |          |          |      |      |          |
| Hospitality & Travel                    |          |          |          |      |      |          |
| Manufacturing, Industrial & Electronics |          |          |          |      |      |          |
| Media, Marketing & Gaming               |          |          |          |      |      |          |
| Public Sector & Nonprofits              |          |          |          |      |      |          |
| Retail                                  |          |          |          |      |      |          |
| Technology                              |          |          |          |      |      |          |
| Telecommunications                      |          |          |          |      |      |          |

# Automotive & Logistics: AI Agents From Cockpit to Curbside

| AGENT TYPE | ORGANIZATION            | USE CASE                                                                                                                           | OUTCOME / METRIC                                              |
|------------|-------------------------|------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------|
| CUSTOMER   | Mercedes-Benz           | MBUX Virtual Assistant powered by Gemini via Vertex AI enables natural driver conversations for navigation and points of interest. | Natural language in-car assistant                             |
| CUSTOMER   | LUXGEN (Taiwan EV)      | AI agent on LINE answers customer questions via Vertex AI.                                                                         | Reduced human CS workload by <b>30%</b>                       |
| CUSTOMER   | General Motors (OnStar) | Virtual assistant with Google Cloud conversational AI recognizes speaker intent.                                                   | Improved intent recognition                                   |
| CUSTOMER   | Volkswagen of America   | myVW app virtual assistant lets drivers query owner's manuals; multimodal camera feature for dashboard indicators.                 | Gemini multimodal capabilities                                |
| CUSTOMER   | UPS Capital             | DeliveryDefense Address Confidence uses ML to score delivery success likelihood.                                                   | Data-driven delivery confidence                               |
| CUSTOMER   | PODS / Tombras          | "World's Smartest Billboard" on trucks adapted to NYC neighborhoods in real time using Gemini.                                     | <b>6,000+</b> unique headlines • 299 neighborhoods • 29 hours |
| EMPLOYEE   | Toyota                  | AI platform on Google Cloud enables factory workers to build and deploy ML models.                                                 | Saved <b>10,000+</b> man-hours per year                       |
| CODE       | Renault Group (Ampere)  | Enterprise Gemini Code Assist understands company code base, standards, and conventions.                                           | Developer productivity for EV software                        |

## Quantified Impact: 500% ROI, 30% Workload Reduction, 10,000 Hours Saved

MERCARI

# 500% ROI

Anticipates 500% ROI while reducing employee workloads by **20%** through AI-powered customer service.

LUXGEN

# -30%

Customer service agent workload reduced by **30%** with a Vertex AI chatbot.

TOYOTA

# 10,000+

Factory AI platform saved over **10,000** man-hours per year.

PODS / TOMBRAS

# 6,000+

Generated **6,000+** unique headlines across **299** NYC neighborhoods in **29 hours**.

## Common Patterns: Customer Assistants, Employee Productivity, and Creative Scale

Three dominant patterns emerge across the 1,001 use cases.

### Conversational customer agents

Virtual assistants handle customer queries, reduce wait times, and lower human agent workloads.

Mercedes-Benz • GM (OnStar) • VW • LUXGEN  
Commerzbank • Mercari

### Employee productivity agents

Workspace copilots accelerate research, summarization, drafting, and review across departments.

Uber • Rivian • Geotab  
Gemini for Google Workspace

### Creative + scale (multimodal)

Gen AI moves from text into large-scale, brand-aware creative production.

Virgin Voyages (Veo) • PODS / Tombras  
Figma brand-approved assets in seconds

# Takeaways: Where to Start and What to Expect from Enterprise Gen AI

01

## Gen AI is production-ready across major industries

The list spans 11 industry groups, indicating broad applicability beyond early tech adopters.

02

## Start with Customer and Employee agents

Conversational assistants and workplace productivity tools are the most common deployment patterns.

03

## Anchor programs on measurable outcomes

Reported results include **500% ROI** (Mercari), **30%** workload reduction (LUXGEN), and **10,000+** man-hours saved per year (Toyota).

04

## Creative and code agents are scaling quickly

Examples include large-batch hyper-personalized campaigns (Virgin Voyages), brand-approved assets in seconds (Figma), and enterprise code copilots (Renault Ampere).

05

## The adoption curve is accelerating

The compilation grew from 101 (Apr 2024) to 1,001 (Oct 2025), with 400 new entries in the latest update – implying fast-followers will face a moving baseline.
