

1,001 Real-World Gen AI Use Cases from Google Cloud Customers

For enterprise technology leaders and digital transformation executives evaluating generative AI adoption strategies

1,001 use cases

11 industries

6 agent types

Last updated: Oct 9, 2025

Scale signal: 10× growth from the original 101 entries (April 2024 → October 2025).

From 101 to 1,001: Gen AI Adoption Grew 10× in 18 Months

The catalog expanded from 101 use cases at Cloud Next 24 (April 2024) to 1,001 by October 2025.

April 2024 — 101 use cases

Published at Cloud Next 24

October 2025 — 1,001 use cases

Last updated Oct 9, 2025; +400 new entries in the latest update

10× growth in 18 months

11 Industries × 6 Agent Types: A Taxonomy of Enterprise Gen

Use this matrix to map opportunities, align owners, and sequence adoption by highest-value agent patterns.

Industry \ Agent type	Customer	Employee	Creative	Code	Data	Security
Automotive & Logistics						
Business & Professional Services						
Financial Services						
Healthcare & Life Sciences						
Hospitality & Travel						
Manufacturing, Industrial & Electronics						
Media, Marketing & Gaming						
Public Sector & Nonprofits						
Retail						
Technology						
Telecommunications						

Use the grid as a portfolio map: prioritize 1-2 agent types per industry, then scale cross-function.

Industry groups and agent types as defined in the Google Cloud use-case catalog

Automotive & Logistics: AI Agents From Cockpit to Curbside

Representative sample of deployments across agent types, with reported outcomes/metrics where provided.

Agent type	Organization	Use case	Outcome / metric
Customer	Mercedes-Benz	MBUX Virtual Assistant powered by Gemini via Vertex AI enables natural driver conversations for navigation and POI	Natural language in-car assistant
Customer	LUXGEN (Taiwan EV)	AI agent on LINE answers customer questions via Vertex AI	Reduced human CS workload by 30%
Customer	General Motors (OnStar)	Virtual assistant with Google Cloud conversational AI recognizes speaker intent	Improved intent recognition
Customer	Volkswagen of America	myVW app virtual assistant lets drivers query owner's manuals; multimodal camera feature for dashboard indicators	Gemini multimodal capabilities
Customer	UPS Capital	DeliveryDefense Address Confidence uses ML to score delivery success likelihood	Data-driven delivery confidence
Customer	PODS / Tombras	"World's Smartest Billboard" on trucks adapted to NYC neighborhoods in real time using Gemini	6,000+ unique headlines; 299 neighborhoods; 29 hours
Employee	Toyota	AI platform on Google Cloud enables factory workers to build and deploy ML models	10,000+ man-hours/year saved
Employee	Uber	AI agents summarize CS communications and surface prior interaction context	Improved CS rep effectiveness
Employee	Rivian	Gemini in Google Workspace for instant research, accelerated learning, and rapid skill acquisition	Faster onboarding and deep research
Employee	Geotab	Google Workspace with Gemini for research, summarization, legal review, data filtering across 4.7M connected vehicles	Cross-functional productivity
Employee	Routematic	Migrated infrastructure to Google Cloud in 8 months with zero downtime	Release cycles shortened from weeks to days
Employee	704 Apps	Gemini analyzes in-trip audio to measure emotional "temperature" and flag hostile language for safety alerts	Real-time safety monitoring
Code	Renault Group (Ampere)	Enterprise Gemini Code Assist understands company code base, standards, and conventions	Developer productivity for EV software

Quantified Impact: 500% ROI, 30% Workload Reduction, 10,000+ man-hours saved, 6,000+ headlines generated

Selected reported metrics across the broader 1,001 use cases.

500% ROI

Mercari anticipates 500% ROI
+ 20% employee workload reduction

30%

LUXGEN reduced customer service workload
via Vertex AI chatbot

10,000+

Toyota saved 10,000+ man-hours/year
factory AI platform

6,000+

PODS / Tombras generated 6,000+ headlines
299 NYC neighborhoods in 29 hours

These are reported production outcomes across the 1,001 use cases (not pilots).

Common Patterns: Customer Assistants, Employee Productivity

Across industries, deployments cluster into a few repeatable patterns that scale quickly.

1) Conversational customer agents

Automotive: Mercedes-Benz, GM (OnStar), VW, LUXGEN

Financial services: Commerzbank

Retail: Mercari (AI-powered customer service)

2) Employee productivity agents

Uber: summarize CS communications + context

Rivian: Gemini in Workspace for research + learning

Geotab: research, legal review, data filtering across 4.7M vehicles

3) Creative & scale agents

Virgin Voyages: Veo creates thousands of hyper-personalized ads/emails in a batch
PODS / Tombras: 6,000+ unique headlines in 29 hours

Figma: brand-approved images/assets in seconds

Takeaways: Where to Start and What to Expect from Enterprise

Actionable guidance grounded in observed deployments and reported outcomes.

- 1. Treat gen AI as production-ready: real deployments span 11 industries and 6 agent types.**
2. Start where adoption is already common: customer and employee agents dominate current deployments.
3. Anchor on measurable outcomes: 500% ROI, workload reduction, and large time savings are already reported.
4. Plan for rapid expansion: the catalog grew 10× from April 2024 to October 2025, with 400 new entries in the latest update.
5. Use a portfolio approach: map opportunities by industry × agent type, then scale the winning patterns across functions.

Next step: pick 3 use cases to pilot → production
