From 101 to 1,001: Gen AI Adoption Grew 10× in 18 Months

The catalog expanded from 101 (Apr 2024) to 1,001 (Oct 2025), with 400 new entries in the latest update.

What changed in the latest update?

- Added 400 new entries (marked with an asterisk in the list)
- Expanded breadth across 11 industries and 6 agent types

11 Industries × 6 Agent Types: A Taxonomy of Enterprise Gen AI

A practical organizing framework: choose an industry, then scan agent types (Customer, Employee, Creative, Code, Data, Security).

Industry	Customer	Employee	Creative	Code	Data	Security
Automotive & Logistics						
Business & Professional Services						
Financial Services						
Healthcare & Life Sciences						
Hospitality & Travel						
Manufacturing, Industrial & Electronics						
Media, Marketing & Gaming						
Public Sector & Nonprofits						
Retail						
Technology						
Telecommunications						

Note: The source catalog organizes the 1,001 use cases using this industry × agent-type taxonomy.

Automotive & Logistics: AI Agents From Cockpit to Curbside

Representative sample shows breadth across customer, employee, and code agents—with measurable outcomes in production.

Agent	Organization	Use case summary	Key metric / detail
Customer	Mercedes-Benz	MBUX Virtual Assistant powered by Gemini via Vertex AI for natural driver conversations (navigation, POI)	Natural language in-car assistant
Customer	Volkswagen of America	myVW app virtual assistant for owner’s manuals; multimodal camera for dashboard indicators	Gemini multimodal capabilities
Customer	General Motors (OnStar)	Virtual assistant with Google Cloud conversational AI recognizes speaker intent	Improved intent recognition
Customer	LUXGEN (Taiwan EV)	AI agent on LINE answers customer questions via Vertex AI	30% reduction in human CS workload
Customer	PODS / Tombras	“World’s Smartest Billboard” adapts headlines to NYC neighborhoods in real time using Gemini	6,000+ headlines · 299 neighborhoods · 29 hours
Customer	UPS Capital	DeliveryDefense Address Confidence uses ML to score delivery success likelihood	Data-driven delivery confidence
Employee	Toyota	AI platform enables factory workers to build and deploy ML models	10,000+ man-hours/year saved
Employee	Uber	AI agents summarize CS communications and surface prior interaction context	Improved CS rep effectiveness
Employee	Rivian	Gemini in Workspace for instant research; NotebookLM for verified-source FAQs	Faster onboarding; reduced repetitive inquiries
Employee	Geotab	Workspace with Gemini for research, summarization, legal review, and data filtering	Cross-functional productivity
Code	Renault Group (Ampere)	Enterprise Gemini Code Assist aligned to company code base, standards, and conventions	Developer productivity for EV software

Quantified Impact: 500% ROI, 30% Workload Reduction, 10,000 Hours Saved

Across industries, organizations report production outcomes—from ROI to workload reduction to creative throughput.

**Mercari**

Anticipates ROI

500%

Also reduces employee workloads by 20%

**LUXGEN**

CS workload reduction

30%

6,000+

headlines across 299 NYC neighborhoods in 29 hours

Note: Outcomes are reported in the cited Google Cloud customer examples.

Common Patterns: Customer Assistants, Employee Productivity, and Creative & Scale Agents

Across industries, repeatable patterns show where adoption is most mature—and where it is accelerating fastest.

Conversational customer agents

- Mercedes-Benz, GM OnStar, VW, LUXGEN
- Commerzbank: easier to reach a CS agent via gen AI
- Mercari: AI-powered customer service

Employee productivity agents

- Uber: summarize CS communications + context
- Rivian: research, learning, verified FAQs
- Geotab: summarization, legal review, data filtering

Creative & scale agents

- Virgin Voyages: thousands of hyper-personalized ads/emails (Veo)
- Figma: brand-approved assets in seconds
- PODS: adaptive headlines at neighborhood level

Takeaways: Where to Start and What to Expect from Enterprise Gen AI

Use the taxonomy to prioritize; start with proven agent types; expect measurable impact and rapid acceleration.

1

Start where adoption is proven

Customer + employee agents are the most common entry points across industries.

2

Set measurable outcome targets

Examples include 500% ROI, 30% workload reduction, and 10,000+ hours saved annually.

3

Plan for creative and code acceleration

Creative-at-scale and code agents are emerging fast in production workflows.

4

Move with the curve

The list grew 10× from Apr 2024 to Oct 2025, with 400 new entries in the latest update.

5

Operationalize a portfolio view

Use industry × agent type to sequence initiatives and allocate investment.
