

1,001 Real-World Gen AI Use Cases from Google Cloud Customers

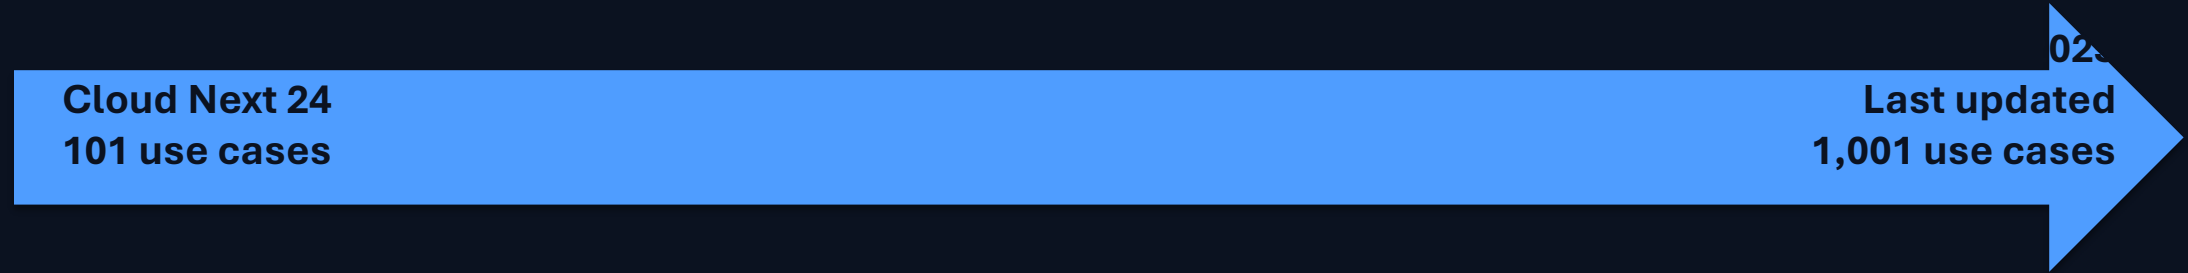

Report scope: 1,001 use cases • 11 industries • 6 agent types

Google Cloud Blog (published April 12, 2024; last updated October 9, 2025)

10× growth from the original 101 entries (Cloud Next 24)

From 101 to 1,001: Gen AI Adoption Grew 10× in 18 Months

**10× expansion in reported deployments
across industries**

**Latest update added 400 new entries
(asterisk-marked in the list)**

11 Industries × 6 Agent Types: A Taxonomy of Enterprise Gen AI

Industry \ Agent Type	Customer	Employee	Creative	Code	Data	Security
Automotive & Logistics						
Business & Professional Services						
Financial Services						
Healthcare & Life Sciences						
Hospitality & Travel						
Manufacturing, Industrial & Electronics						
Media, Marketing & Gaming						
Public Sector & Nonprofits						
Retail						
Technology						
Telecommunications						

Framework used in the Google Cloud list: each industry section is organized by these six agent types.

Automotive & Logistics: AI Agents From Cockpit to Curbside

Agent type	Organization	Use case	
Customer	Mercedes-Benz	MBUX Virtual Assistant powered by Gemini via Vertex AI enables natural driver conversations for navigation and POI	Natural language in-car assistant
Customer	LUXGEN (Taiwan EV)	AI agent on LINE answers customer questions via Vertex AI	Reduced human CS workload by 30%
Customer	General Motors (OnStar)	Virtual assistant with Google Cloud conversational AI recognizes speaker intent	Improved intent recognition
Customer	Volkswagen of America	myVW app virtual assistant lets drivers query owner's manuals; multimodal camera feature for dashboard indicators	Gemini multimodal capabilities
Customer	UPS Capital	DeliveryDefense Address Confidence uses ML to score delivery success likelihood	Data-driven delivery confidence
Customer	PODS / Tombras	"World's Smartest Billboard" on trucks adapted to NYC neighborhoods in real time using Gemini	6,000+ unique headlines • 299 neighborhoods • 29 hours
Employee	Toyota	AI platform on Google Cloud enables factory workers to build and deploy ML models	10,000+ man-hours/year saved
Employee	Uber	AI agents summarize CS communications and surface prior interaction context	Improved CS rep effectiveness
Employee	Rivian	Gemini in Google Workspace for instant research, accelerated learning, and rapid skill acquisition	Faster onboarding and deep research
Employee	Geotab	Google Workspace with Gemini for research, summarization, legal review, data filtering across 4.7M connected vehicles	Cross-functional productivity
Code	Renault Group (Ampere)	Enterprise Gemini Code Assist understands company code base, standards, and conventions	Developer productivity for EV software

Quantified Impact: 500% ROI, 30% Workload Reduction, 10,000 Hours Saved

500% ROI

Mercari anticipates 500% ROI while reducing employee workloads by 20% through AI-powered customer service.

30% workload reduction

LUXGEN reduced human customer service workload by 30% with a Vertex AI chatbot.

10,000+ hours saved

Toyota saved over 10,000 man-hours per year with an AI platform for factory ML.

6,000+ headlines in 29 hours

PODS / Tombras generated 6,000+ unique ad headlines across 299 NYC neighborhoods in 29 hours.

These outcomes are reported production results in the Google Cloud use-cases list (not pilots).

Common Patterns: Customer Assistants, Employee Productivity, and Creative Scale

1) Conversational customer agents

Automotive: Mercedes-Benz, GM
OnStar, VW, LUXGEN
Financial services: Commerzbank
Retail: Mercari

2) Employee productivity agents

Uber: summarizes CS
communications and context
Rivian: Gemini in Workspace for
research + learning
Geotab: research, summarization,
legal review, data filtering

3) Creative at enterprise scale

Virgin Voyages: Veo creates
thousands of hyper-personalized
ads/emails
PODS: real-time adaptive billboards
(6,000+ headlines in 29 hours)
Figma: brand-approved
images/assets in seconds

Across the 1,001 examples, customer and employee agents dominate; creative + multimodal production is rapidly expanding.

Takeaways: Where to Start and What to Expect from Enterprise Gen AI

1. Gen AI is production-ready across major industries (1,001 real deployments).
2. Start with customer and employee agents: the most common, highest-visibility entry points.
3. Set ROI targets early: outcomes include 500% ROI, 20–30% workload reduction, and 10,000+ hours saved annually.
4. Prepare for multimodal scale: creative systems are generating thousands of assets in hours (e.g., Veo, real-time billboards).
5. Expect accelerating adoption: the list grew 10× in 18 months and added 400 entries in the latest update.
