VS Code autonomous coding agent riding the AI-assisted dev wave

App Ecosystem: Who's Calling These Models

Top Apps by Daily Token Consumption

Coding Tools Dominate

The top 4 apps by token consumption are all AI coding tools — making coding agents the single largest LLM consumption scenario.

OpenClaw	829B/day	AI productivity assistant
Kilo Code	271B/day	VS Code AI coding assistant
Claude Code	78B/day	Anthropic's CLI coding tool
Cline	69.1B/day	VS Code autonomous agent

Entertainment apps (Janitor AI, ISEKAI ZERO) still hold a notable presence alongside coding tools.

Key Insights and Industry Implications

01 Chinese Models Dominate Globally

Chinese providers now hold 54%+ combined market share on this international platform. Xiaomi, MiniMax, DeepSeek, Stepfun, and Zhipu are reshaping the competitive landscape with strong cost-performance models.

02 AI Coding Agents Lead Consumption

5 of the top 10 apps are coding tools. AI-assisted development is the single largest commercial use case for LLMs, with OpenClaw alone consuming 829B tokens/day.

03 A Highly Fragmented Market

The top 10 models span 8 different providers. No single model or provider monopolizes the market, signaling fierce competition and an unsettled landscape.

04 Speed & Cost Beat Peak Performance

Flash/Turbo variants (Step 3.5 Flash, GLM 5 Turbo, Gemini 3 Flash) far outpace flagship models in real-world usage. Users are voting with their feet for affordable, fast inference.
