Headline: **Xiaomi MiMo-V2-Pro leads with 3.96T weekly tokens.**

Provider Market Share Breakdown

**Chinese providers
combined share >54%**

Note: Provider share is across the full market (all models and apps), not only top-10 models.

Shifts in the Market Landscape

Key Competitive Shifts

- Chinese models now exceed 54% combined share on this international platform
- Anthropic growth has stalled despite 2 models in top 10
- Flash/Turbo variants significantly outperform flagship models in usage

Weekly usage growth (approx.): ~2T → ~26T

This Week's Rising Stars: Fastest-Growing Models

Growth Drivers

- Cost-performance advantage
- Better latency for production workloads
- Rising coding-agent demand
- Rapid ecosystem adoption

App Ecosystem: Who's Calling These Models

Category Signal

The top 4 apps by daily token usage are coding assistants, indicating AI coding agents are now the largest LLM usage category.

Key Insights and Industry Implications

- Chinese models now hold a dominant combined share in global usage on OpenRouter (>54%).
- AI coding agents are the single largest LLM consumption scenario today.
- The model market remains fragmented, with no single provider controlling over 30%.
- Fast, affordable Flash/Turbo variants consistently outpace flagship models in production adoption.
