Provider Market Share Breakdown

- Chinese provider combined share: 54.3%
- Xiaomi leads at 25.9%
- Top-10 model totals do not equal provider share
- Provider share is across all models/apps

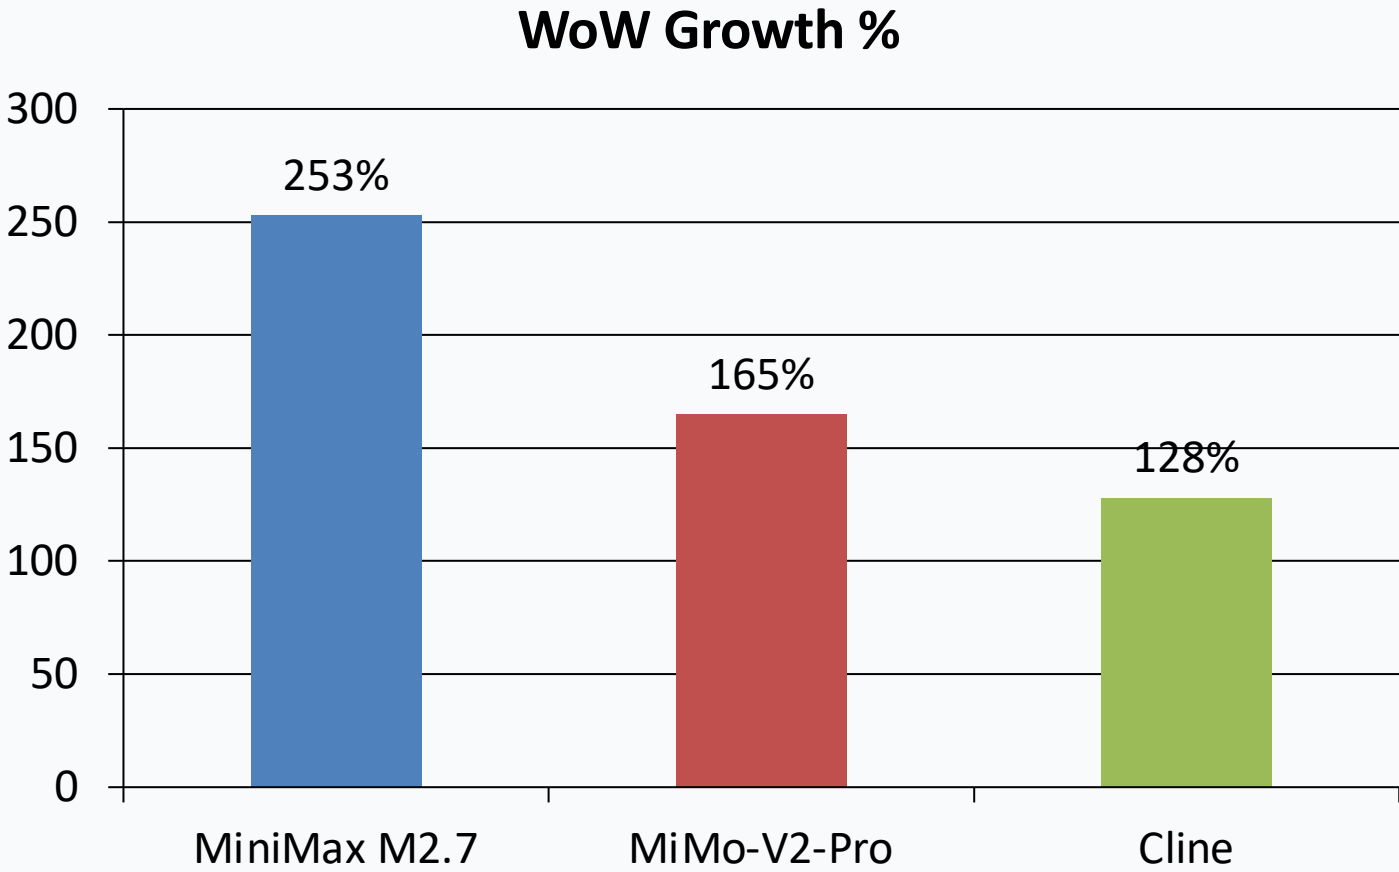

Shifts in the Market Landscape

Weekly market expanded from ~2T to ~26T tokens across Mar 2025–Mar 2026

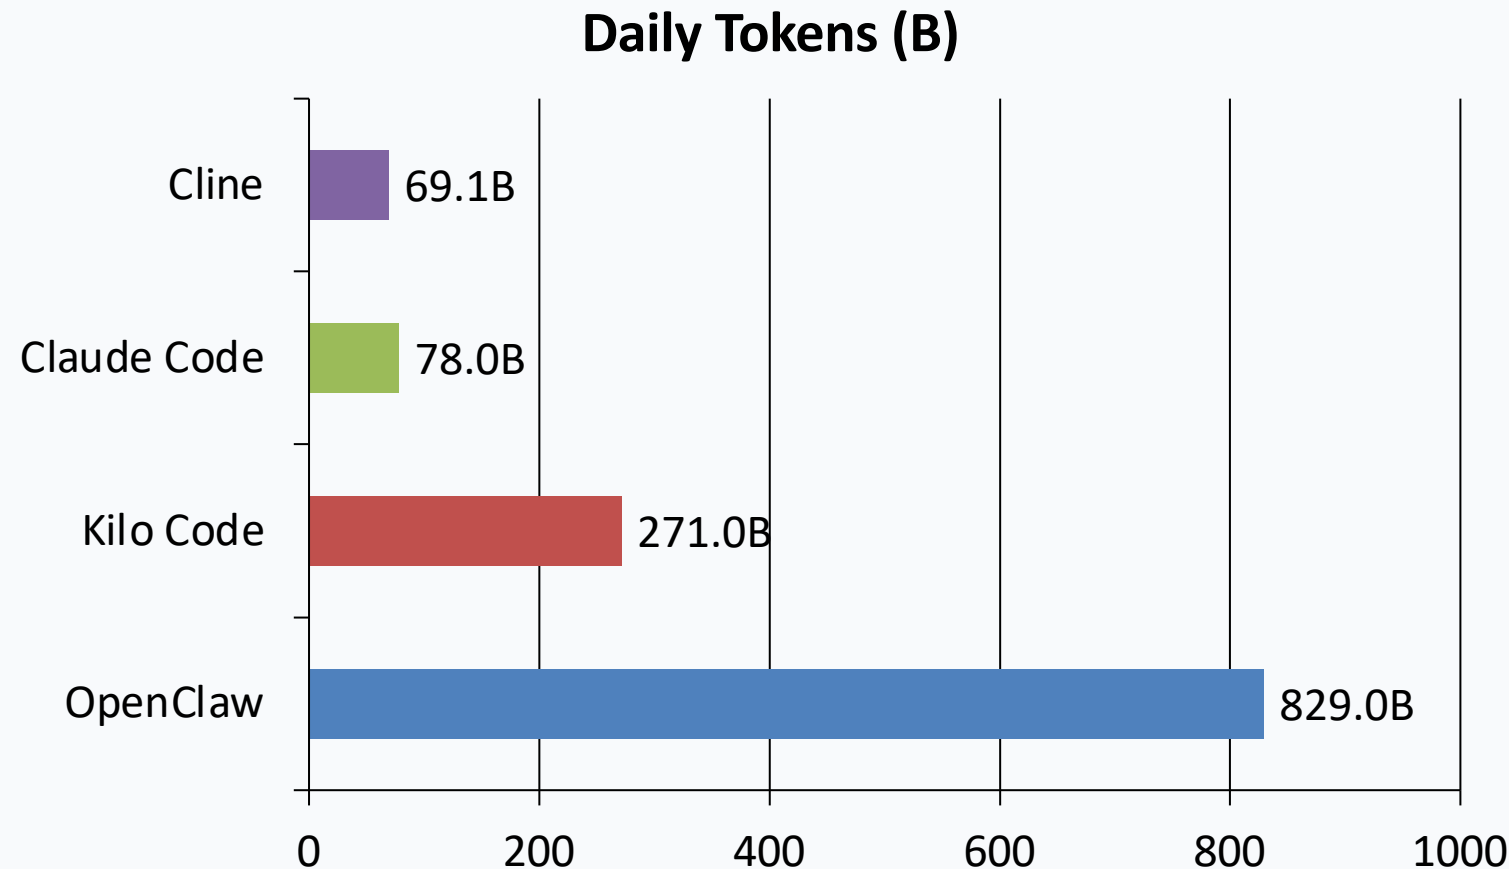

- Chinese models now hold >54% combined share (X)
- Anthropic retains two top-10 models, but WoW gro
- Flash/Turbo variants significantly outpace flagship m

This Week's Rising Stars: Fastest-Growing Models

- MiniMax M2.7 (+253%): strong value/performance across all benchmarks
- MiMo-V2-Pro (+165%): category-leading volume and performance
- Cline (+128%): coding-agent demand drives model popularity
- Driver pattern: cost-efficient + production-ready models

App Ecosystem: Who's Calling These Models

- OpenClaw: 829B/day (~3× Kilo Code).
- Top usage cluster is AI coding assistants.
- Coding agents represent the largest LLM consumption.
- Ecosystem pull increasingly comes from developers.

Key Insights and Industry Implications

1. Chinese providers now command a majority share (~54.3%) on this global usage platform.
2. AI coding agents are the highest-intensity demand center across applications.
3. The provider/model landscape remains fragmented; no single winner exceeds 30% share.
4. Fast, affordable Flash/Turbo-style models consistently outperform flagship models in real usage.
