# Community Engagement: "hermes-agent Draws 78 PRs and 42 Pushes"

8 of 20 repos have zero PRs — many are early-stage or single-author

# Key Takeaways: AI Coding Agents Are GitHub's Hottest Category

1

## AI coding agents dominate

14 of the top 20 repos (70%) are AI coding agent tools, skills, or related resources

2

## Claude Code ecosystem

At least 7 repos are specifically Claude Code skills, guides, best-practices, or multi-tool switchers

3

## Python leads (35%), TypeScript follows (20%)

reflecting AI/ML core and agent UX layers

4

## Community engagement is top-heavy

hermes-agent attracted 78 PRs in 24 hours; most repos below #8 show minimal collaborative activity

5

## Token efficiency is a hot sub-theme

repos like caveman and rtk focus on reducing LLM token consumption as AI coding tools scale
