Public Repositories Analyzed

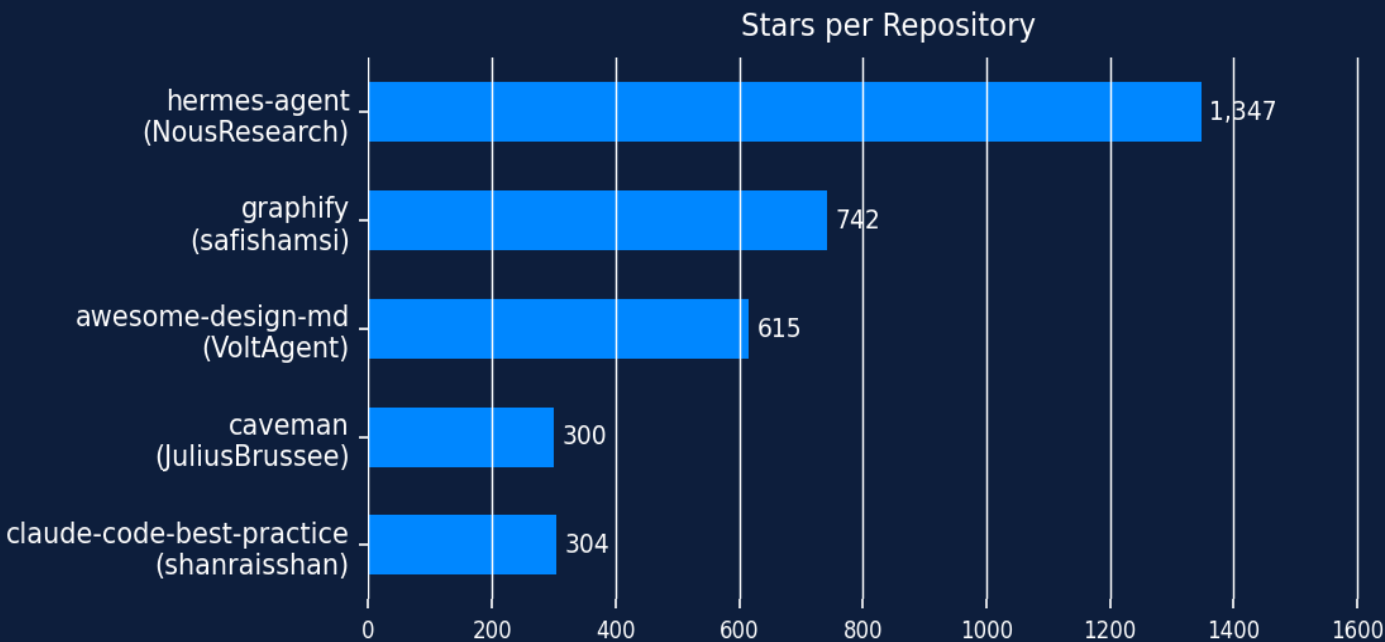

OSSInsight is a free, real-time analytics platform that tracks open-source repository performance across stars, commits, pull requests, issues, contributors, and community health metrics. The platform ranks trending repositories using a composite Total Score combining Stars, Forks, and Base scores — and powers the analysis in this deck.

Total Score = Stars score + Forks score + Base score

Data reflects top 20 trending repos across all languages — past 24 hours

hermes-agent Leads with 1,347 Stars — Top 5 Repos by Total Score

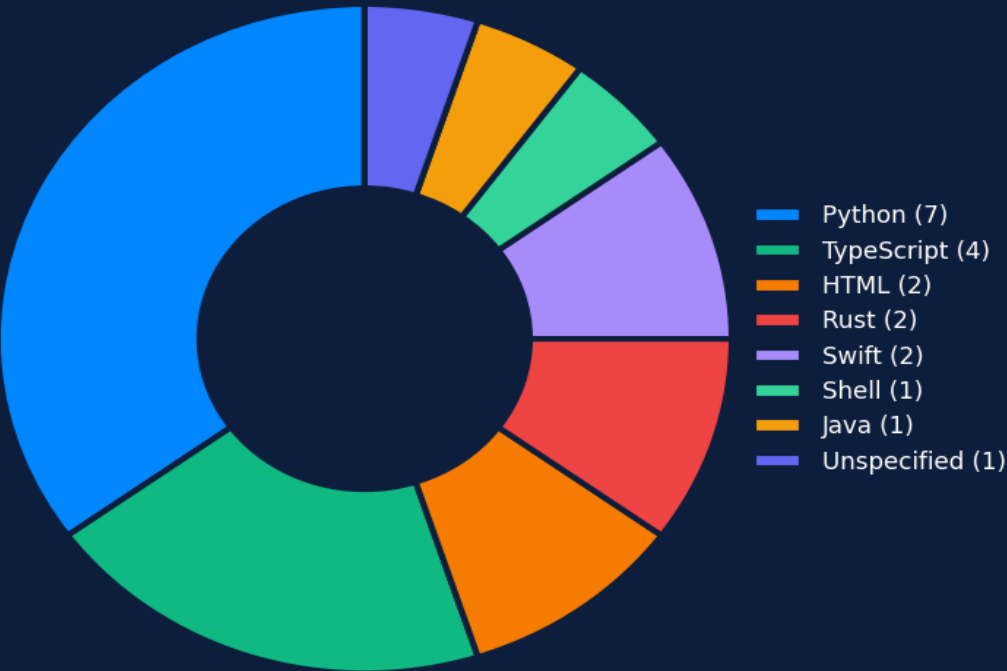

#	Repository	Stars	Forks	Pushes	PRs
1	NousResearch/hermes-agent	1347	101	42	78
2	safishamsi/graphify	742	50	6	5
3	VoltAgent/awesome-design-md	615	48	1	0
4	JuliusBrussee/caveman	300	11	1	1
5	shanraishan/claude-code-best-practice	304	23	0	0

HERMES-AGENT dominates: 1,347 stars, 78 PRs, and 42 pushes in 24h — more than 3× the activity of #2 (graphify at 742 stars). The top repos are overwhelmingly AI coding agents.

Python and TypeScript Dominate Trending Repos' Language Mix

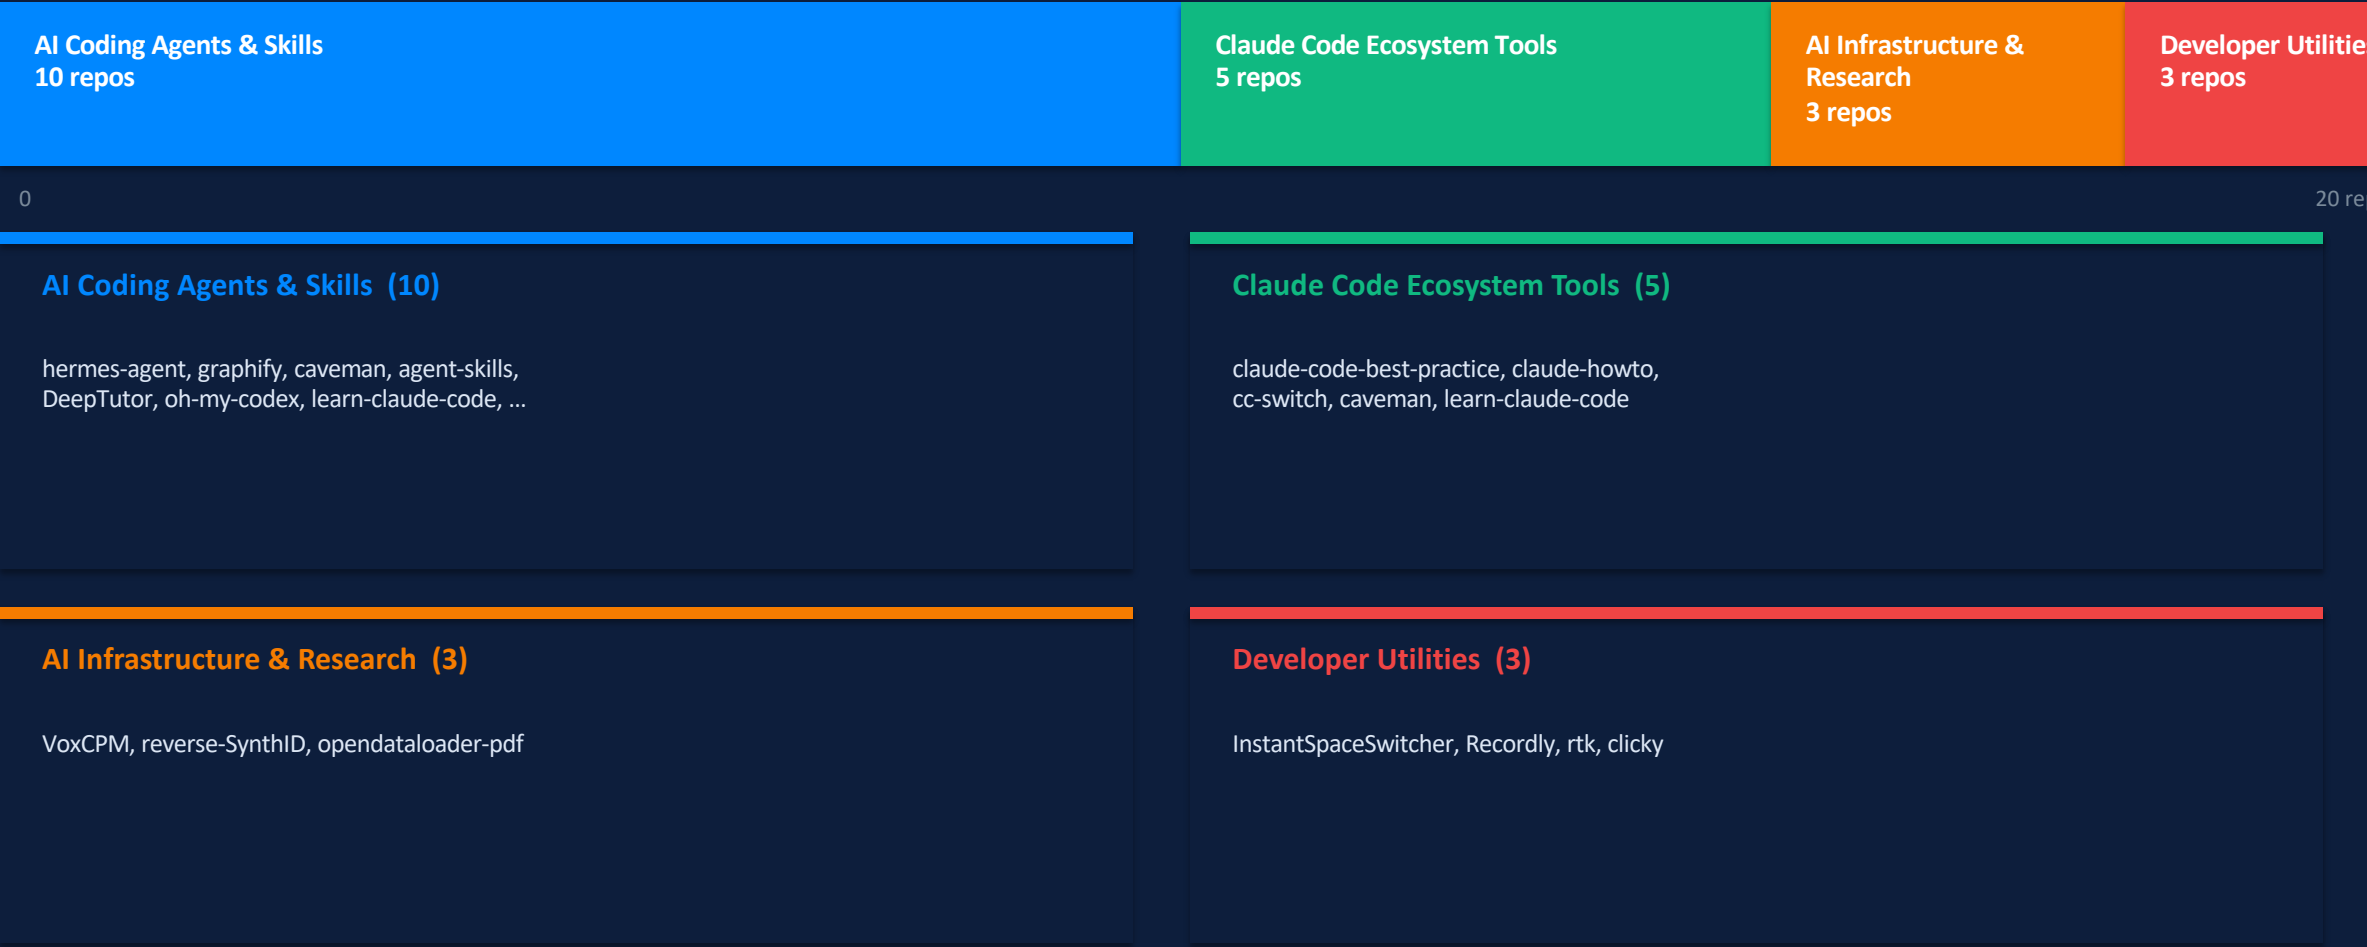

Language Distribution — Top 20 Repos

Key Observations

- ▶ **Python (35%)** 7 repos — AI/ML ecosystem core language; dominates due to AI coding agent tooling.
- ▶ **TypeScript (20%)** 4 repos — strong showing for developer tooling and agent UI frameworks.
- ▶ **HTML (10%)** 2 repos — primarily DESIGN.md file collections for coding agents.
- ▶ **Rust (10%)** 2 repos — rtk and cc-switch signal performance-critical agent tooling.
- ▶ **Swift (10%)** 2 repos — native macOS utility tools (space switcher, clicky).
- ▶ **Shell/Java/Unspec.** 3 repos — developer utilities, PDF parsing, and 1 undefined project.

14 of 20 Trending Repos Are AI Coding Agent or Claude Code Projects

Note: Some repos cross-list across categories (e.g., caveman appears in both AI Coding Agents and Claude Code Ecosystem). Counts reflect primary categorization.

Claude Code Spawns an Ecosystem: Skills, Guides, Switches, and Best Practices

Core Claude Code Ecosystem Tools (5 repos)

★ 304 shanraishan/claude-code-best-practice

Practice made Claude perfect

★ 124 luongnv89/claude-howto

Visual guide to Claude Code — basics to advanced agents

★ 122 farion1231/cc-switch

Cross-platform All-in-One assistant for Claude Code, Codex, OpenCode, Gemini CLI

★ 300 JuliusBrussee/caveman

Claude Code skill cutting 75% of tokens by talking like caveman

★ 113 shareAI-lab/learn-claude-code

Nano Claude Code-like agent, built from 0 to 1

Broader Ecosystem & Related AI Coding Agents (7+ repos)

★ 159 Yeachan-Heo/oh-my-codex

Add hooks, agent teams, HUDs to your Codex

★ 191 addyosmani/agent-skills

Production-grade engineering skills for AI agents

★ 1347 NousResearch/hermes-agent

The agent that grows with you

★ 742 safishamsi/graphify

Turn any folder into a queryable knowledge graph

★ 245 HKUDS/DeepTutor

Agent-Native Personalized Learning Assistant

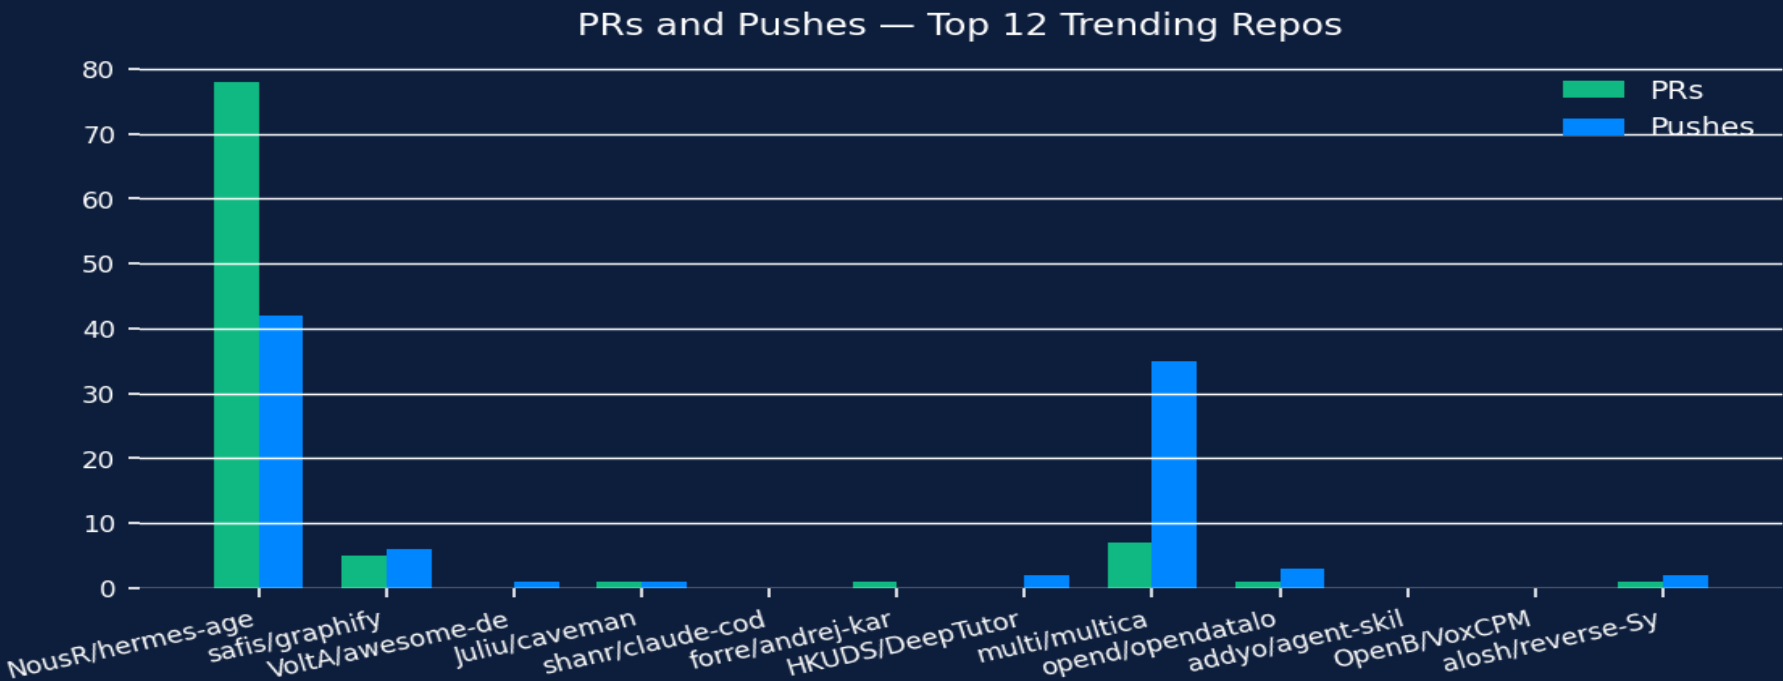

★ 245 multica-ai/multica

Coding agents as real teammates

★ 267 forrestchang/andrej-karpathy-skills

KEY FINDING: At least 7 repos specifically serve as Claude Code skills, guides, best-practice collections, or multi-tool switchers — indicating rapid community formation around Anthropic's coding tool. The hermes-agent (#1 overall) also broadly functions as a Claude Code-compatible agent.

hermes-agent Draws 78 PRs and 42 Pushes — Community Activity Varies Widely

Engagement Highlights

78 PRs

hermes-agent

42 pushes

hermes-agent

35 pushes

multica

7 PRs

multica

8 repos

with zero PRs

Engagement is top-heavy: NousResearch/hermes-agent alone accounts for 78 PRs and 42 pushes in 24 hours, dwarfing all other repos combined. multica-ai is the only other high-activity project (35 pushes, 7 PRs). 8 of 20 repos show zero PRs — indicating early-stage, single-author projects riding initial hype virality.

Key Takeaways: AI Coding Agents Are GitHub's Hottest Category

1

AI Coding Agents Dominate Trending

14 of 20 (70%) top repos are AI coding agent tools, skills, or Claude Code resources — an unprecedented concentration in a single theme.

2

Claude Code Has Spawnd a Full Ecosystem Overnight

At least 7 repos serve as Claude Code skills, guides, best-practice collections, or multi-tool switchers. Core tools like `claude-code-best-practice`, `claude-howto`, `cc-switch`, `caveman`, and `learn-claude-code` show how quickly the community is organizing around Anthropic's product.

3

Python Leads, TypeScript Is the Runner-Up

Python at 35% (7 repos) reflects AI/ML ecosystem primacy. TypeScript at 20% (4 repos) drives agent UIs, developer tooling, and multi-agent frameworks — the DX layer on top of AI infrastructure.

4

Community Engagement Is Top-Heavy

`hermes-agent` alone: 78 PRs + 42 pushes. `multica` is the only other high-activity repo. 8 of 20 repos have zero PRs — early-stage virality, not yet mature community development.

5

Token Efficiency Is a Hot Sub-Theme

Multiple repos (`caveman`, `rtk`) explicitly target LLM token reduction (60–90%). As AI coding agents scale, cost-conscious tooling is becoming a competitive differentiator.
