3-part

ranking formula

Stars score + Forks score + Base score

6+

tracked signals

stars, commits, PRs, issues, contributors, reviews

Why this source matters

- Combines popularity with activity through a composite total score.
- Covers stars, pull requests, issues, commits, reviews, contributors, and community health metrics.
- Reflects top 20 repositories in the past 24 hours across all programming languages.

Ranking lens

Total Score = Stars score + Forks score + Base score

This deck uses only the repository names, counts, categories, and findings provided in source_brief.md.

hermes-agent Leads with 1,347 Stars — Top 5 Repos by Total Score

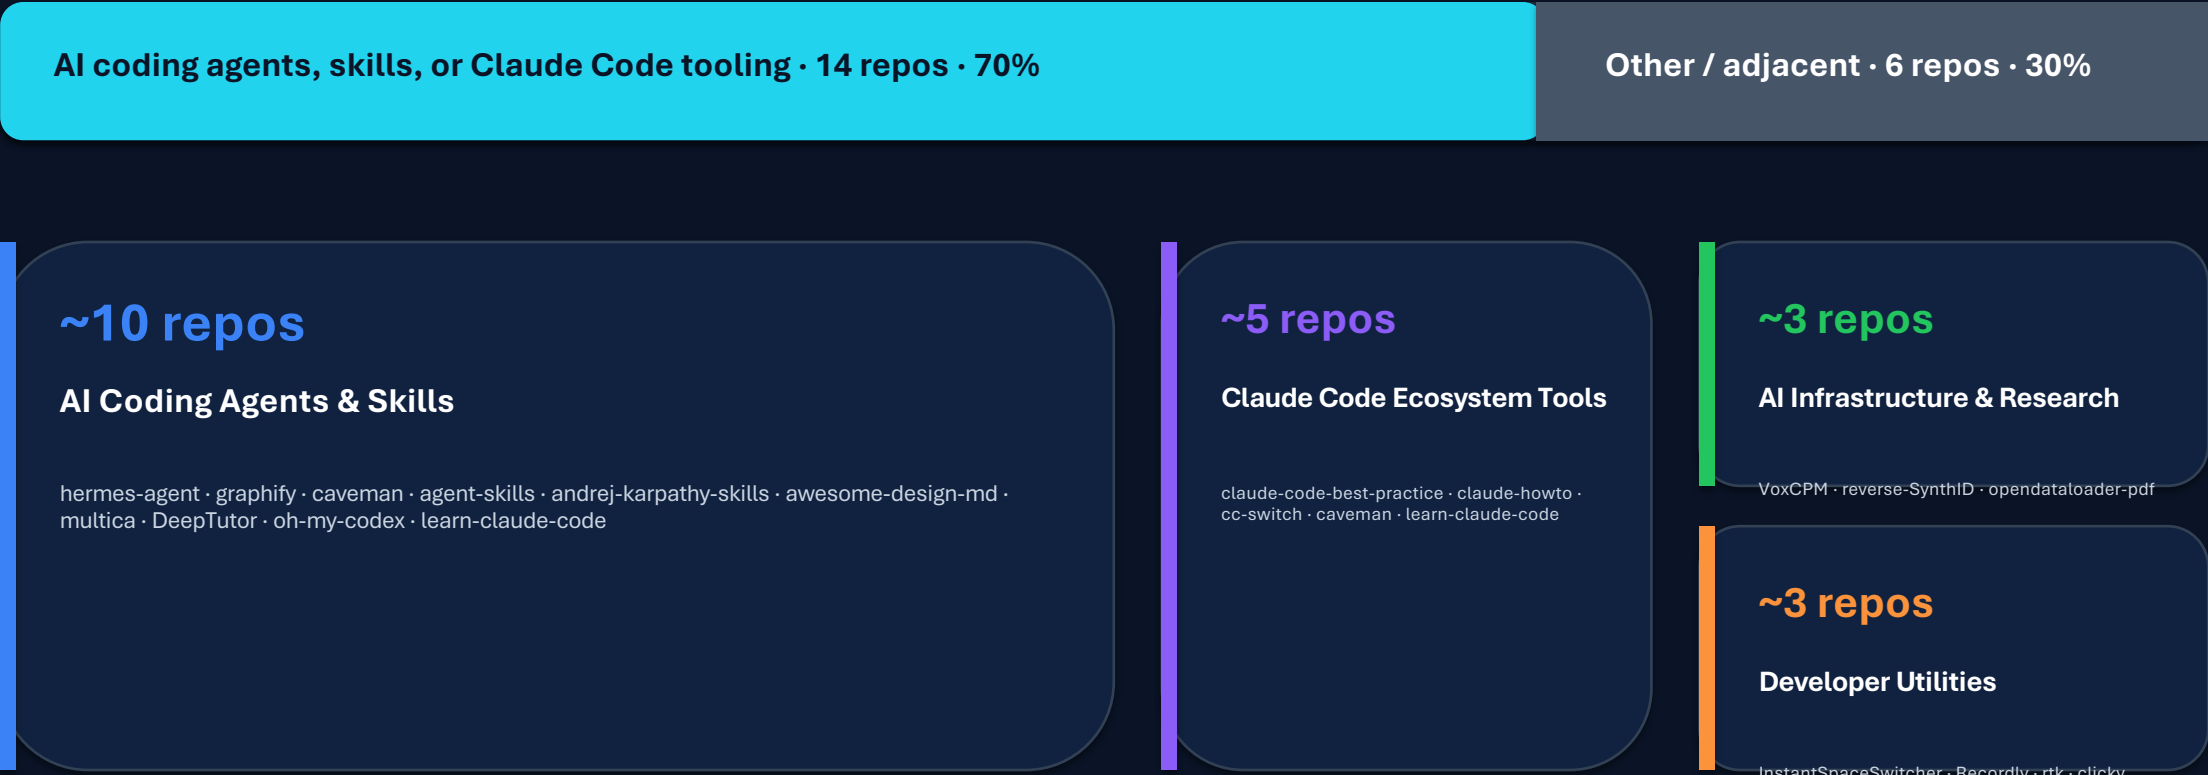

Ranked table plus normalized bars for stars, forks, pushes, and pull requests.

Rank / Repository	Stars	Forks	Pushes	PRs
#1 NousResearch/hermes-agent The agent that grows with you	1,347	101	42	78
#2 safishamsi/graphify AI coding assistant skill — folder to queryable knowledge graph	742	50	6	5
#3 VoltAgent/awesome-design-md DESIGN.md files capturing design systems for coding agents	615	48	1	0
#4 JuliusBrussee/caveman Claude Code skill that cuts 75% of tokens	300	11	1	1
#5 shanraisschan/claude-code-best-practice Practice made Claude perfect	304	23	0	0

Signal: #1 combines the strongest popularity spike with the only 78-PR outlier in the top 5.

14 of 20 Trending Repos Are AI Coding Agent or Claude Code Projects

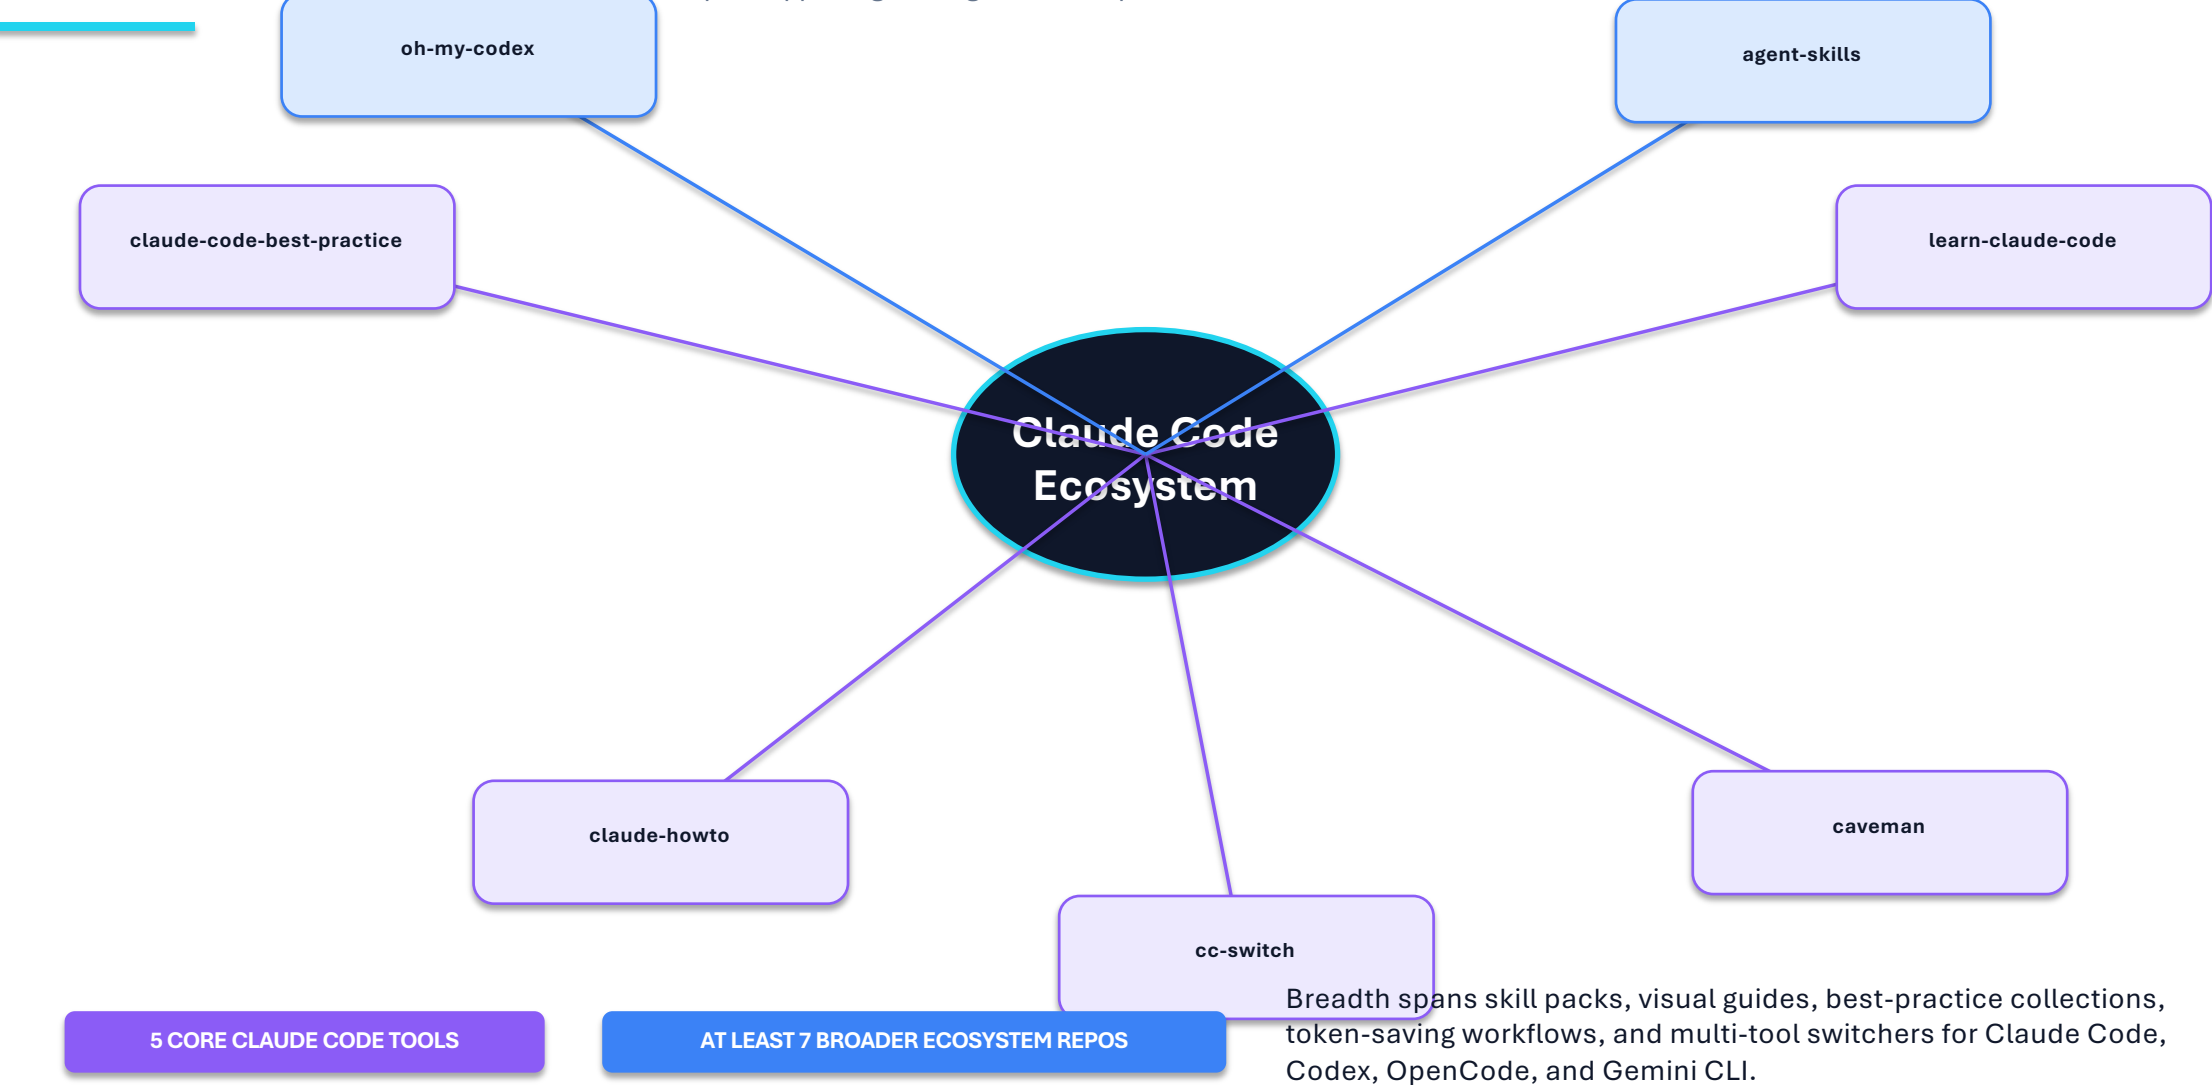

Thematic clustering shows a striking ~70% concentration around AI coding assistance.

Note: categories in the brief overlap; the 14-of-20 headline is the direct AI coding assistance concentration.

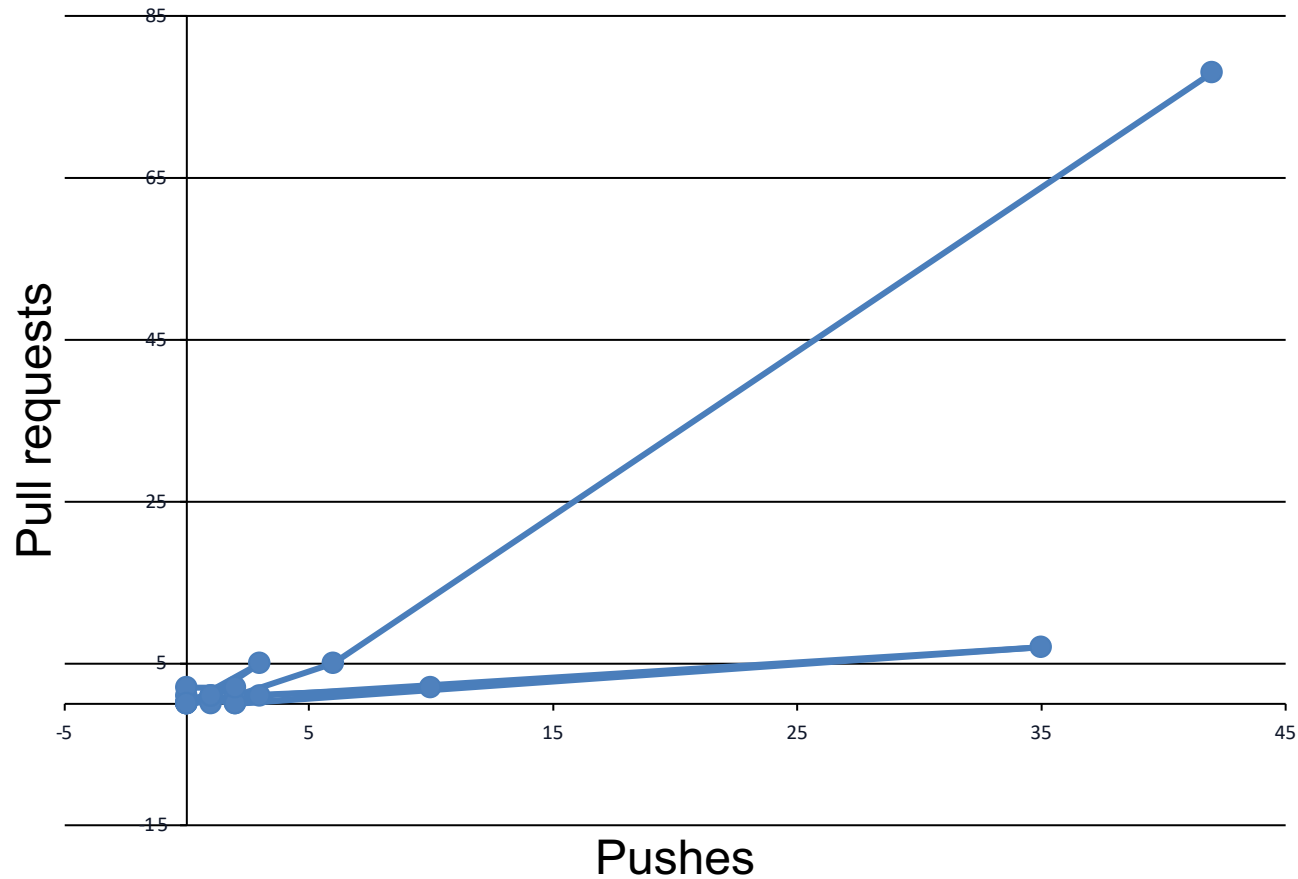

Claude Code Spawns an Ecosystem: Skills, Guides, Switches, and Best Practices

Five core Claude Code tools plus at least seven broader repos supporting skills, guides, best practices, or switchers.

hermes-agent Draws 78 PRs and 42 Pushes — Community Activity Varies Widely

Pushes vs pull requests across all 20 repos shows top-heavy collaboration and many zero-PR projects.

Highest engagement

NousResearch/hermes-agent: 42 pushes, 78 PRs

Second-most active

multica-ai/multica: 35 pushes, 7 PRs

Long tail

8 of 20 repos have zero PRs, suggesting early-stage or single-author hype cycles.

Key Takeaways: AI Coding Agents Are GitHub's Hottest Category

Strategic implications for developer advocates, community teams, and engineering leaders.

AI agent dominance

14 of the top 20 repos (70%) are AI coding agent tools, skills, or related resources.

Claude Code ecosystem explosion

At least 7 repos serve as Claude Code skills, guides, best-practice collections, or multi-tool switchers.

Python leads; TypeScript follows

Python powers 35% of trending repos; TypeScript contributes 20% across tooling and experience layers.

Engagement is concentrated

hermes-agent attracted 78 PRs in 24 hours; most repos below #8 show minimal collaborative activity.

Token efficiency is a hot sub-theme

aveman and rtk explicitly target LLM token reduction, signaling cost pressure as usage scales.

Strategic read: community momentum is shifting from general AI demos toward operational AI coding workflows, skill systems, and cost-aware agent infrastructure.
