- Student outlier: 2 yrs / \$15K

Upper-right cluster indicates strongest compensation concentration in senior leadership and DevRel/management tracks.

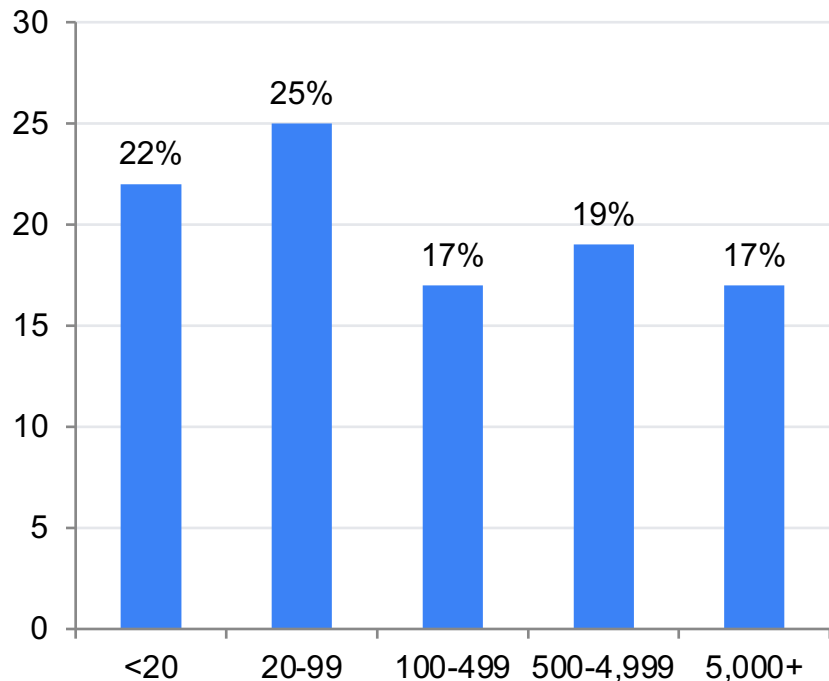

Erlang & Clojure Developers Earn >\$95K; Dart & Prolog Below \$45K

Language pay bands

- Top: Erlang \$97K, Clojure \$95K, Elixir \$93K
- Mid: Python \$67K, JavaScript \$64K
- Low: PHP \$49K, Dart \$44K, Prolog \$43K
- Reported average range fell ~\$10K vs 2023 (to \$60–75K).

47% Work at Sub-100 Orgs; 62% Influence Tech Purchases

Purchasing Influence

62%

of developers influence tech purchases

60%

prefer a build-and-buy approach

Takeaways: What These Trends Mean for Hiring & Retention

- Full-time employment is softening; incorporate contractor and freelance pathways into workforce planning.
- In-person expectations are increasing, but hybrid remains dominant at 42%; retain location flexibility.
- Budget premiums for leadership, DevRel, and SRE roles where market medians cluster near or above six figures.
- Language ecosystems correlate with compensation; niche functional stacks command higher pay than mainstream web stacks.
- Developers materially influence tooling choices; align employer brand and tooling strategy with practitioner preferences.
