

Developer Workforce & Compensation Trends — 2024 Stack Overflow Survey

65,437 respondents across 180+ countries

Engineering workforce, compensation, and hiring signals for 2024

84% of Developers Are Working, but Full-Time Employment Dips in the U.S.

Key points

- 84% are currently working (full-time, part-time, or f
- Full-time is dominant globally at 69%.
- U.S. full-time employment declined from 69.0% (2023) to 64.5% (2024).
- Freelancing/contracting remains significant at 16.4% globally.

In-Person Work Rises to 20% While Hybrid Holds Steady at 42%

Trend interpretation

Hybrid remains the most common arrangement at 42% in 2024.
Remote work is 38% in 2024.
In-person work increased for the third consecutive year.
Signals a gradual return-to-office trend rather than a full return.

Senior Executives and Dev Advocates Top \$124K+ Median Salary

Median salary (USD)

Dataset notes

22,677 salary responses
34.7% salary response rate
