

Developer Workforce & Compensation Trends — 2024 Stack Over

65,437 respondents across 180+ countries

84% of Developers Are Working, but Full-Time Employment Dips

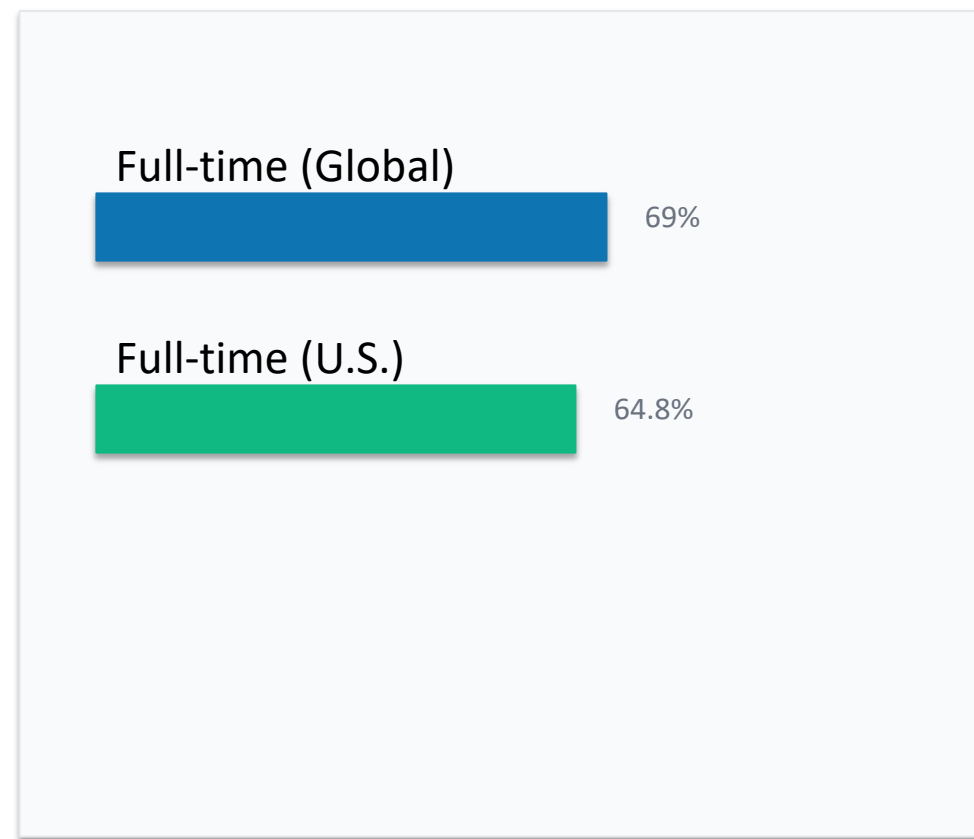

Global status: full-time 69%, freelance 16.4%, student 13.2% (65,437 respondents)

84% are currently working (full-time, part-time, or freelancing).

Full-time remains dominant globally at 69%.

Independent contracting / freelancing: 16.4%; full-time students: 13.2%.

United States: full-time employment fell from 69% (2023) to 64.8% (2024).

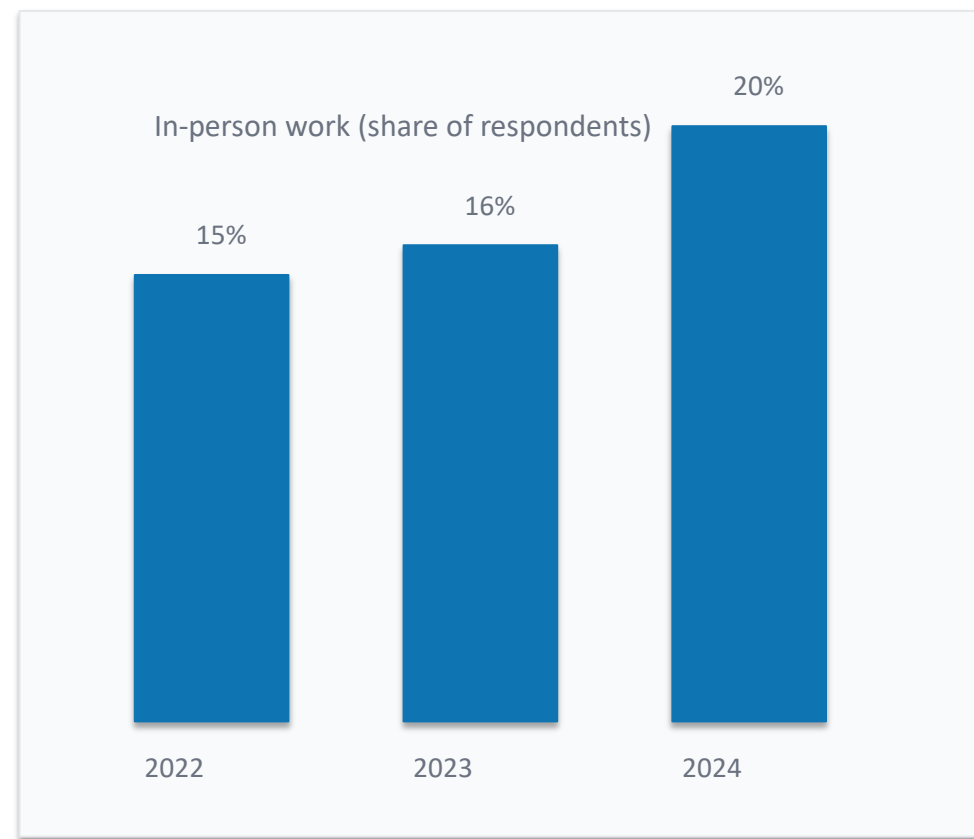

In-Person Work Rises to 20% While Hybrid Holds Steady at 42%

Hybrid 42% (flat vs 2023); remote 38%; in-person up for third straight year

Hybrid is the most common arrangement at 42% (consistent with 2023).

Remote work accounts for 38%.

In-person work increased: 15% (2022) → 16% (2023) → 20% (2024).

Senior Executives and Dev Advocates Top \$124K+ Median Salary

Median annual compensation (USD); 22,677 salary responses (34.7% response rate)

Top roles: Senior Executive (\$127,388), Dev Advocate (\$124,203), Manager (\$115,999).

Highest-paid purely technical roles: SRE (\$99,099) and Cloud Infrastructure Engineer (\$96,666).

Student: \$15,466 median (lower experience band).

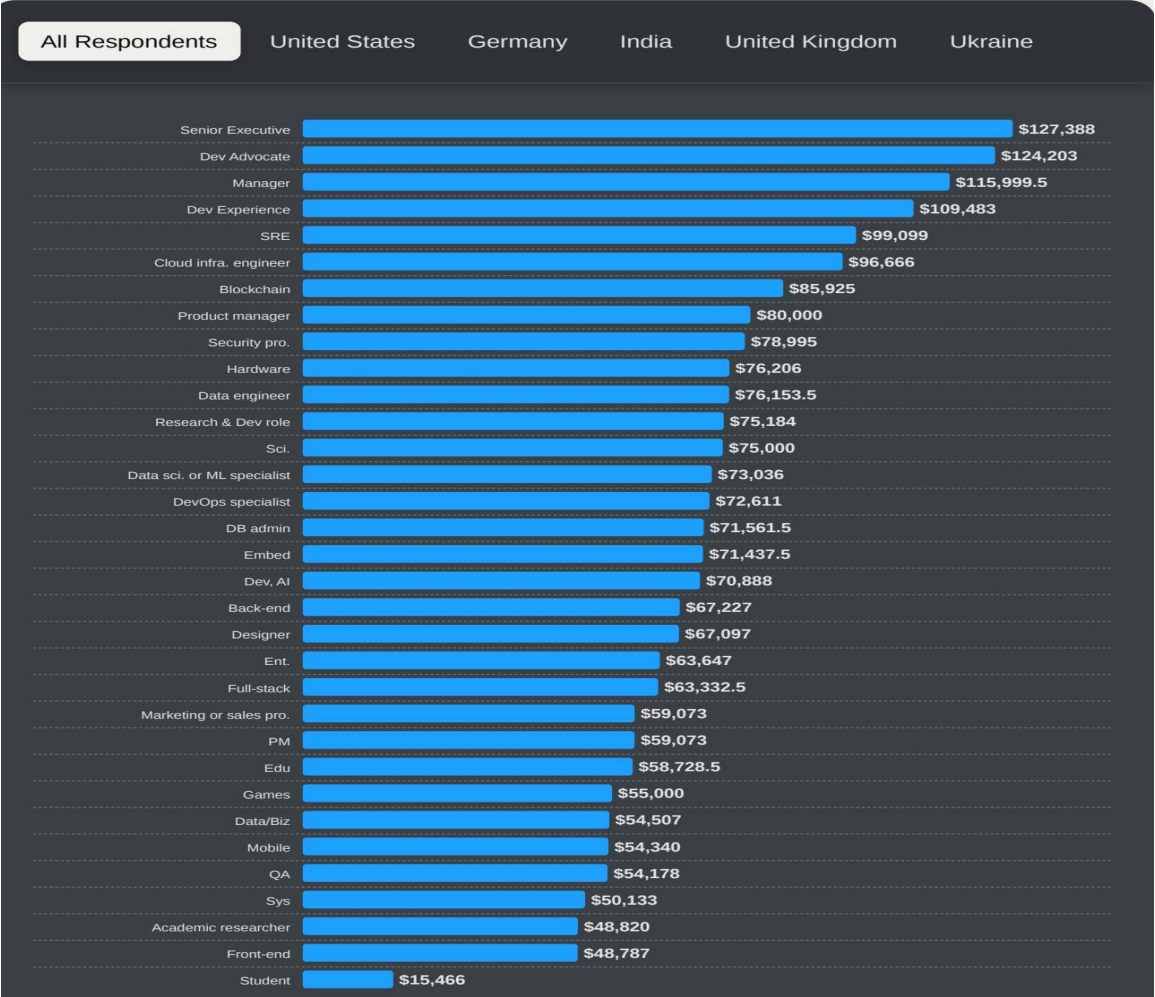

Chart reference: figure_1.jpg (Stack Overflow Developer Survey 2024 — Work)

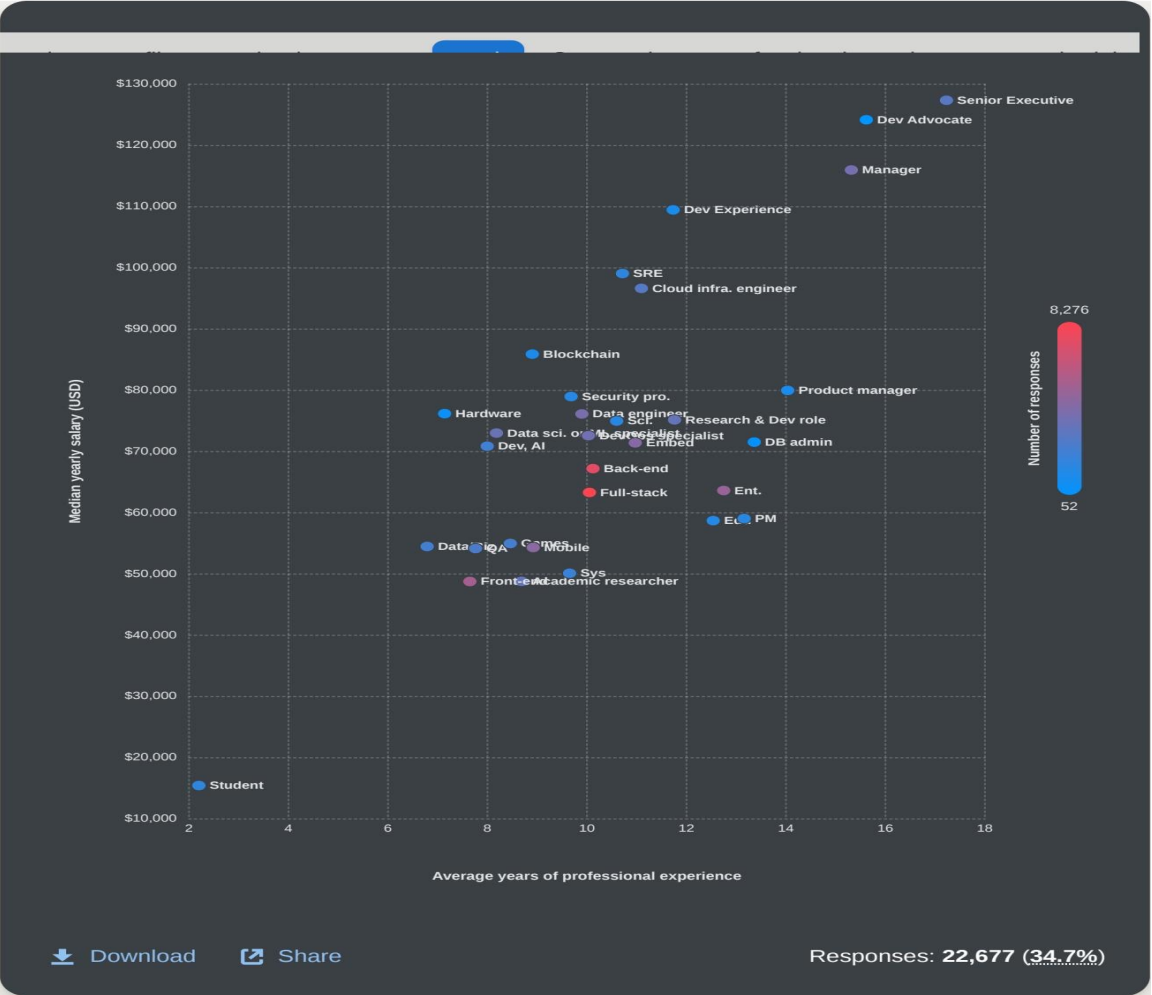

Experience Pays: Top Roles Combine 14+ Years with Six-Figure Salaries

Median salary (y) vs avg. years of experience (x) by developer type

Upper-right cluster reflects leadership and DevRel roles with ~15–17 years experience and \$115K–\$127K medians.

SRE (~10 yrs) and Cloud Infra (~13 yrs) anchor the highest-paid technical roles.

Student (~2 yrs) is a clear low-salary outlier (\$15,466 median).

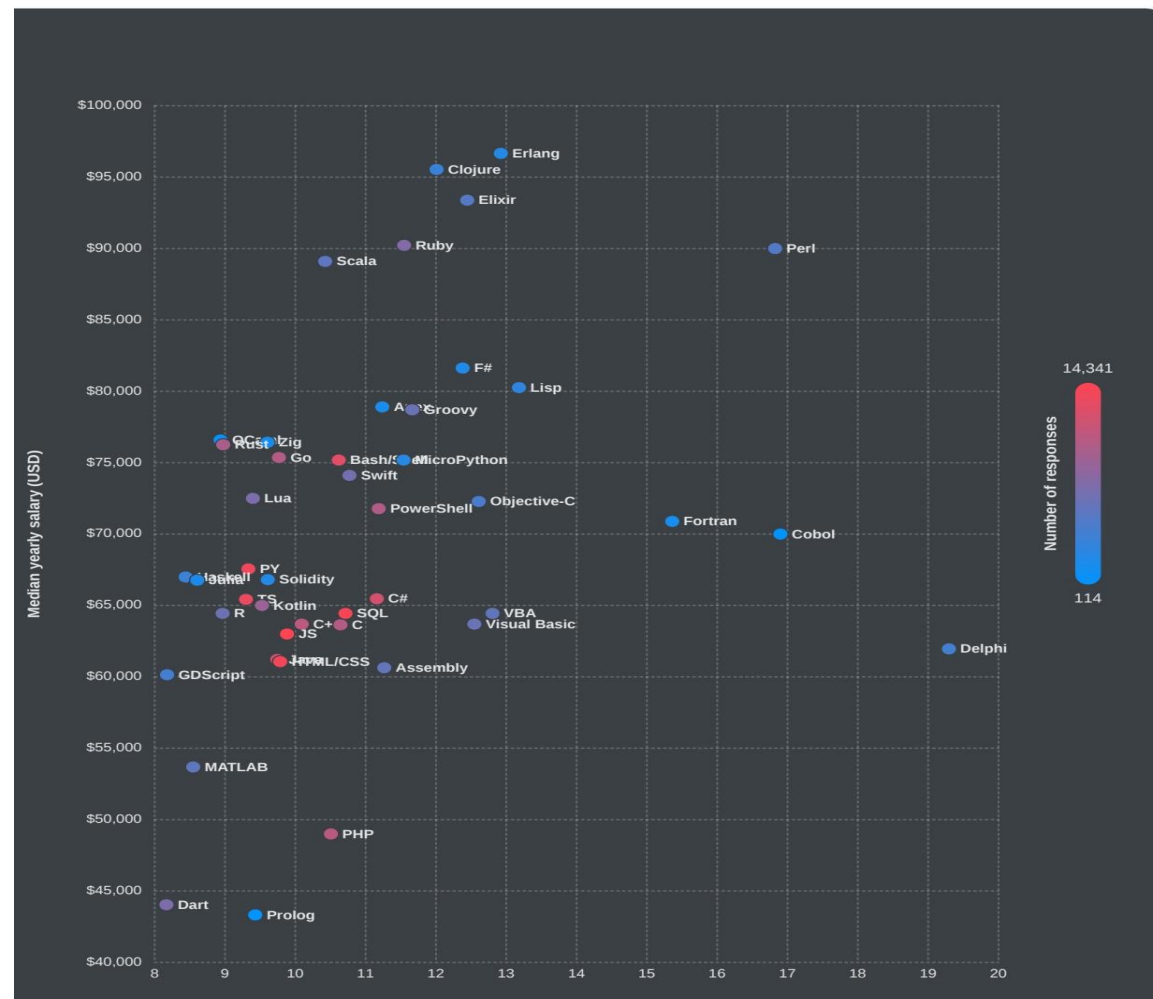

Erlang & Clojure Developers Earn >\$95K; Dart & Prolog Below \$45K

Median salary vs avg. years experience by language; overall range down ~\$10K vs 2023

Top earners: Erlang (~\$97K), Clojure (~\$95K), Elixir (~\$93K) with ~11–12 years experience.

Lowest: Prolog (~\$43K), Dart (~\$44K), PHP (~\$49K).

Reported average salary range is now ~\$60–75K vs ~\$70–85K last year (~\$10K drop).

47% Work at Sub-100 Orgs; 62% Influence Tech Purchases

Company size distribution (42,827 respondents) + purchasing influence behaviors

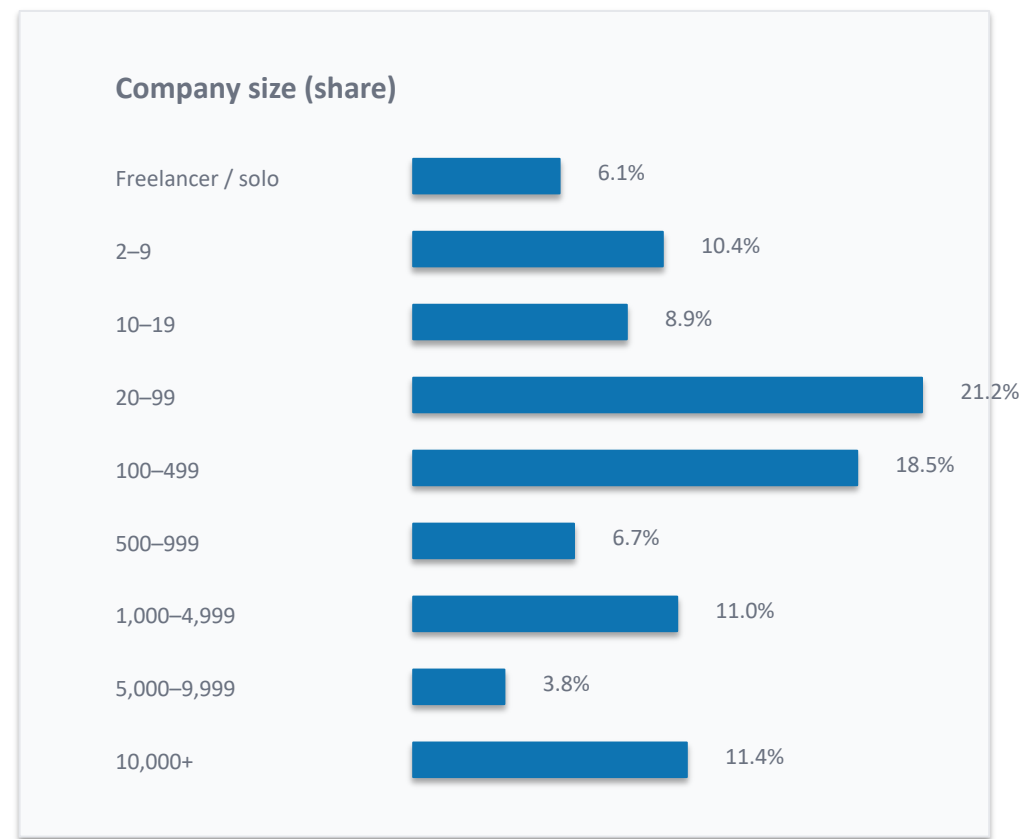

47% work at organizations with fewer than 100 employees.

Largest single bucket: 20–99 employees (21.2%).

Freelancer / solo: 6.1%; 10,000+ employees: 11.4%.

62% have influence over technology purchases; 60% prefer a build-and-buy approach.

Evaluation signals: start a free trial (75%) and ask other developers (73%).

Takeaways: What These Trends Mean for Hiring & Retention

Benchmarks and practical implications for engineering leaders

Plan for more flexible staffing: U.S. full-time employment fell from 69% (2023) to 64.8% (2024); contracting remains 16%+ globally.

Design policies around reality: hybrid remains dominant (42%), but in-person work rose to 20% in 2024.

Budget for premium roles: DevRel and leadership roles exceed \$115K median; SRE (\$99,099) and Cloud Infra (\$96,666) lead technical pay.

Use skill and stack signals carefully: niche functional languages (Erlang/Clojure/Elixir) correlate with >\$93K median pay.

Engage developers in tooling strategy: 62% influence tech purchases; top evaluation methods are free trials (75%) and peer input (73%).
