Experience Pays: Top Roles Combine 14+ Years with Six-Figure Salaries

Highlighted points

- Upper-right cluster: leadership and DevRel roles (15–16 yrs, \$116K–\$127K).
- Student role is a clear outlier at ~\$15K and ~3 years average experience.
- Positive experience-to-pay relationship across most developer types.

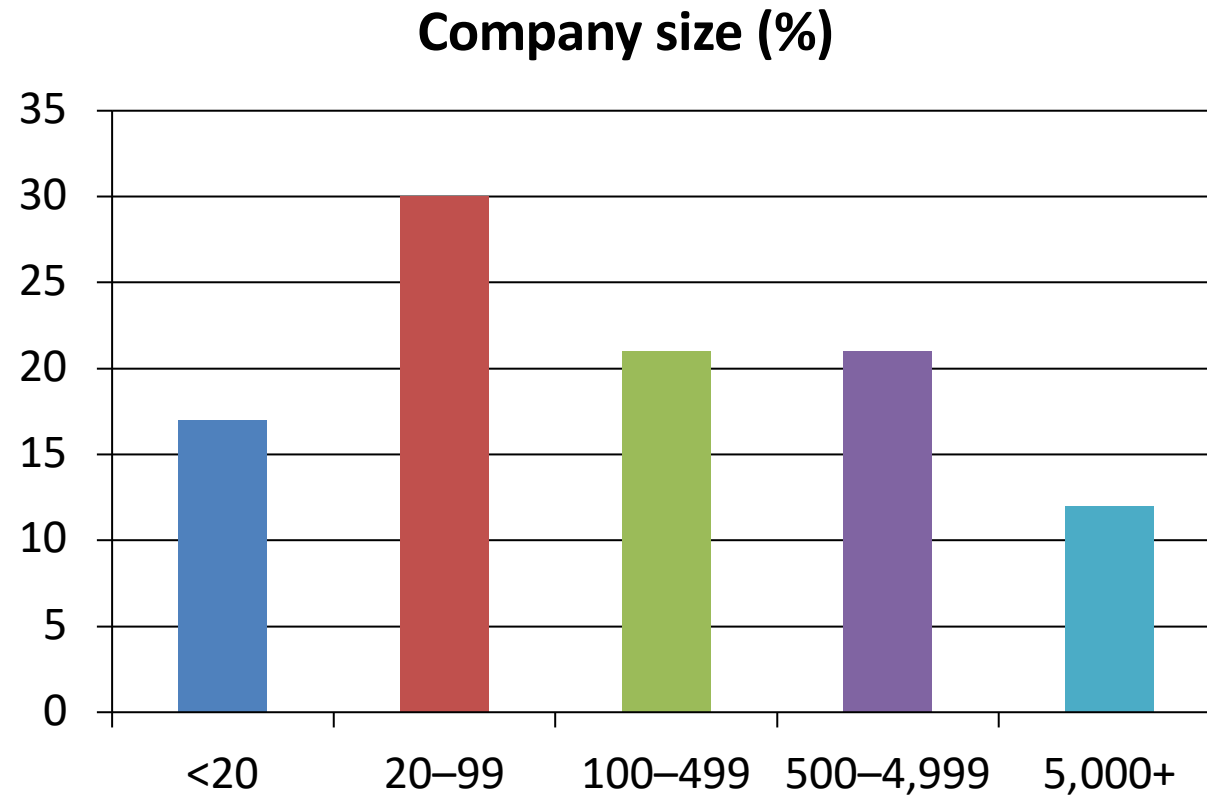

Erlang & Clojure Developers Earn >\$95K; Dart & Prolog Below \$40K

Language insights

- Top median salaries: Erlang (\$97K), Clojure (\$95K)
- Lowest median salaries: Prolog (\$43K), Dart (\$44K)
- Reported average salary range dropped by about

47% Work at Sub-100 Orgs; 62% Influence Tech Purchases

Purchasing influence context

- 62% of respondents influence technology purchasing decisions.
- 60% prefer a build-and-buy approach.
- Evaluation methods: free trials (75%) and peer recommendations (73%).
- Highest influence groups: senior executives (99%), engineering managers (88%).

Takeaways: What These Trends Mean for Hiring & Retention

- Full-time employment is softening (U.S. down to 64.8%); expand contractor and flexible hiring plans.
- Hybrid remains dominant at 42%, but in-person work has risen to 20%; calibrate location policy by role.
- Leadership, DevRel, and platform reliability roles command premium compensation; budget accordingly.
- Language ecosystems correlate with pay levels; niche-language talent often requires higher salary bands.
- Developers materially influence purchasing (62%); engage ICs and managers directly in tool adoption plans.
