STACK OVERFLOW SURVEY 2024

47% Work at Sub-100 Orgs; 62% Influence Tech Purchases

Company-size distribution

47% are in organizations below 100 employees
Distribution based on 42,827 respondents.

Technology purchasing influence

Highest influence by role: Senior executives 99%, engineering managers 87%, product managers 85%

Takeaways: What These Trends Mean for Hiring & Retention

1 Plan for more flexible capacity
Full-time employment is softening; freelancing / contracting remains significant at 16%+.

2 Keep hybrid as the anchor
In-person work has climbed to 20%, but hybrid remains the largest arrangement at 42%.

3 Budget premiums for scarce operational roles
DevRel, leadership, SRE, and cloud infrastructure roles command the strongest medians.

4 Account for language-market premiums
Erlang, Clojure, and Elixir exceed \$93K median; mainstream languages sit lower in the brief.

5 Engage developers directly in tool decisions
62% influence purchases; trials and peer input dominate evaluation behavior.
