Erlang & Clojure Developers Earn >\$95K; Dart & Prolog Below \$45K

Highlights

- Top pay: Erlang \$97K, Clojure \$95K, Elixir \$93K
- Lower end: Dart \$44K, Prolog \$43K, PHP \$49K
- Reported average range is ~ \$10K lower vs 2019

Technology purchasing influence

- 62% influence technology purchases.
- 60% prefer a build-and-buy approach.
- Top influence groups: Senior executives (99%), Engineering managers (87%), Product managers (77%).
- Evaluation behaviors: free trial (75%), peer input (73%).

Actionable implications for engineering and HR leaders

- Plan workforce mix flexibility: U.S. full-time employment softened while contract/freelance remains significant.
- Align workplace policies with market reality: hybrid is stable at 42% even as in-person climbs to 20%.
- Budget competitively for premium roles: DevRel, engineering leadership, and reliability roles command top pay.
- Use language-market signals in comp planning: niche ecosystems correlate with materially higher salaries.
- Treat developers as buying stakeholders: with 62% influencing purchases, product/tool decisions need IC engagement.
