Takeaways: Where to Start and What to Expect from Enterprise Gen AI

Five strategic imperatives for enterprise leaders evaluating generative AI adoption

1

Gen AI is production-ready across all major industries

1,001 real-world deployments across 11 industries prove the technology has moved beyond experimentation into production at scale.

2

Customer and employee agents are the most common entry points

Conversational assistants and workplace productivity tools dominate early adoption, offering clear ROI and low implementation barriers.

3

Measurable ROI is achievable within months

Organizations report outcomes including 500% ROI, 30% workload reduction, and 10,000+ hours saved — in production, not pilots.

4

Creative and code agents are the fastest-growing frontier

Multimodal content generation and developer augmentation represent the next wave, moving from text into video, images, and code.

5

Early movers gain compounding advantages

With 10× growth in 18 months and 400 new entries in the latest update, the pace is accelerating — organizations that delay face growing gaps.
