From 101 to 1,001: Gen AI Adoption Grew 10× in 18 Months

Enterprise gen AI deployment is in its early exponential phase — 400 new entries added in the latest update alone

"Still only scratches the surface of what is becoming possible"
— Google Cloud Blog, October 2025

10× Growth in 18 Months

11 Industries × 6 Agent Types: A Taxonomy of Enterprise Gen AI

INDUSTRY	 Customer	 Employee	 Creative	 Code	 Data	 Security
 Automotive & Logistics						
 Business & Professional Svcs						
 Financial Services						
 Healthcare & Life Sciences						
 Hospitality & Travel						
 Manufacturing & Industrial						
 Media, Marketing & Gaming						
 Public Sector & Nonprofits						
 Retail						
 Technology						
 Telecommunications

Density:  High  Medium  Low

Automotive & Logistics: AI Agents From Cockpit to Curbside

 CUSTOMER AGENT

ORGANIZATION	USE CASE	KEY METRIC / DETAIL
Mercedes-Benz	MBUX Virtual Assistant powered by Gemini — natural driver conversations for navigation & POI	Natural language in-car assistant
LUXGEN	AI agent on LINE answers customer questions via Vertex AI	30% CS workload reduction
General Motors	OnStar virtual assistant with Google Cloud conversational AI	Improved intent recognition
Volkswagen	myVW app assistant + multimodal camera for dashboard indicators	Gemini multimodal capabilities
UPS Capital	DeliveryDefense Address Confidence — ML delivery success scoring	Data-driven delivery confidence
PODS / Tombras	"World's Smartest Billboard" — adapted to NYC neighborhoods in real time	6,000+ headlines, 299 neighborhoods, 29 hrs

 EMPLOYEE AGENT

ORGANIZATION	USE CASE	KEY METRIC / DETAIL
Toyota	AI platform on Google Cloud for factory workers to build & deploy ML models	10,000+ man-hours/year saved
Uber	AI agents summarize CS communications, surface prior interaction context	Improved CS rep effectiveness
Rivian	Gemini Workspace + NotebookLM for research, onboarding, FAQ answers	Faster onboarding & deep research
Geotab	Gemini for Workspace — research, summarization, legal review across 4.7M vehicles	Cross-functional productivity
Routematic	Migrated entire infrastructure to Google Cloud in 8 months, zero downtime	Release cycles: weeks → days

 CODE AGENT

ORGANIZATION	USE CASE	KEY METRIC / DETAIL
Renault Group (Ampere)	Enterprise Gemini Code Assist — understands company code base, standards, conventions	Developer productivity for EV software

Quantified Impact: 500% ROI, 30% Workload Reduction, 10,000 Hours Saved

These are production results, not pilots — organizations are achieving measurable ROI within months of deployment

Anticipated ROI
Return on Investment

500%ROI

Mercari — Japan's largest online marketplace
AI-powered customer service also reducing
employee workloads by 20%

▲ +20% workload reduction

Workload Reduction
Customer Service

30%Reduction

LUXGEN — Taiwan EV manufacturer
Vertex AI chatbot on LINE reduces
human customer service workload by 30%

▲ Vertex AI chatbot

Time Saved
Annual Man-Hours

10,000+Hours/Yr

Toyota — Factory AI platform on Google Cloud
enables factory workers to build and deploy
ML models, saving 10,000+ man-hours per year

▲ Factory ML platform

Creative Scale
Unique Headlines Generated

6,000+Headlines

PODS / Tombras — "World's Smartest Billboard"
6,000+ unique headlines across 299 NYC
neighborhoods in just 29 hours using Gemini

▲ 29 hours, 299 neighborhoods

Common Patterns: Customer Assistants, Employee Productivity, and Creative Scale

Conversational Customer Agents

MOST VISIBLE ENTRY POINT

-  **Mercedes-Benz**
MBUX Virtual Assistant — natural language in-car conversations
- GM OnStar**
Improved speaker intent recognition
- Volkswagen**
myVW app — multimodal owner's manual
- LUXGEN**
Vertex AI chatbot — 30% workload cut
- Mercari**
AI-powered CS — 500% anticipated ROI
- Commerzbank**
Easier customer service agent access via gen AI

→ Most common deployment pattern

Employee Productivity Agents

BROADEST CATEGORY

-  **Uber**
AI agents summarize CS comms, surface prior interaction context
- Rivian**
Gemini for Workspace — instant research, accelerated learning, rapid skill acquisition
- Geotab**
Research, summarization, legal review, data filtering across 4.7M connected vehicles

- Core Capabilities:**
- Document summarization
 - Accelerated research & onboarding
 - Legal review & content drafting
 - Cross-department data filtering

→ Spans HR, engineering, legal, ops

Creative at Scale

FASTEST-GROWING FRONTIER

-  **Virgin Voyages**
Veo text-to-video creates thousands of hyper-personalized ads & emails in a single batch — without sacrificing brand voice
- Figma**
Brand-approved images & assets **generated in seconds**
- PODS / Tombras**
Real-time adaptive billboards — **6,000+ headlines in 29 hours**

Key Trend:
Gen AI is moving from text into multimodal creative production at enterprise scale — video, imagery, and adaptive content generation

→ Text → multimodal transition

Takeaways: Where to Start and What to Expect from Enterprise Gen AI

1

Gen AI is production-ready across all 11 major industries

This is not theoretical — 1,001 real-world deployments are live and delivering results across automotive, financial services, healthcare, retail, technology, and every other major industry vertical.

2

Customer and Employee agents are the most common entry points

Conversational customer assistants and workplace productivity tools dominate deployments across all industries — these are the lowest-risk, highest-impact starting points for enterprise adoption.

3

Measurable ROI is achievable within months

Production deployments report 500% ROI (Mercari), 30% workload reduction (LUXGEN), 10,000+ hours saved annually (Toyota), and thousands of creative assets in hours (Virgin Voyages, PODS).

4

Creative and Code agents are emerging fast — multimodal is the next frontier

Gen AI is moving beyond text: video generation (Veo), brand-approved image creation (Figma), adaptive billboards (PODS), and code assistants (Gemini Code Assist at Renault) represent the fastest-growing segment.

5

The pace is accelerating — early movers gain compounding advantages

400 new entries in the latest update alone. The 10× growth in 18 months signals that enterprise gen AI deployment is still in its early exponential phase — organizations that act now build institutional knowledge faster.
