Key Insights and Industry Implications

1 Chinese Models Dominate the Global Market

Chinese providers hold over 54% combined share on OpenRouter. Xiaomi leads at 25.9% with cost-performance advantages that resonate internationally.

2 AI Coding Agents Are the #1 Use Case

5 of the top 10 apps are coding tools. OpenClaw alone consumes 829B tokens/day. AI-assisted development has become the single largest LLM consumption scenario.

3 No Winner Yet — Highly Fragmented Market

The top 10 spans 8 different providers. No single provider exceeds 30% share. Competition remains fierce and the landscape is far from settled.

4 Fast & Affordable Beats Flagship

Flash/Turbo variants far outpace flagship models in real-world usage. Users are voting with their feet — speed and cost matter more than peak benchmark performance.
