2024 JavaScript Rising Stars

The year's hottest projects by GitHub stars added –
tracking what the JS community actually reached for in
2024.

• Methodology: GitHub stars added Jan-Dec 2024

• Source: Best of JS curated list

• Audience: Frontend engineers & EMs

OVERALL RANKINGS · 2024

shadcn/ui Leads with +38k Stars

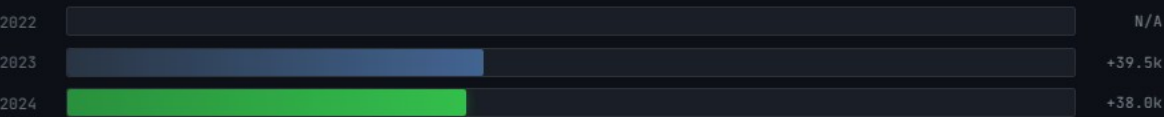

Top 10 most-starred projects – stars added Jan-Dec 2024

shadcn/ui – Back-to-Back Champion

Copy-paste components win for the second consecutive year · 77.5k total stars

GITHUB STARS ADDED BY YEAR

77.5k

Total GitHub stars · Created January 2023

KEY 2024 ADDITIONS

- ◆ Charts (Recharts)

◆ Blocks (layouts)

◆ Multi-framework CLI
- ◆ Themes (CSS vars)

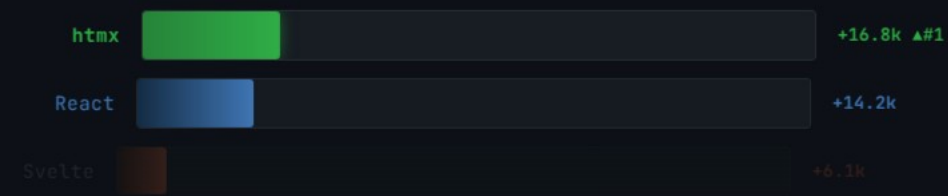

◆ Sidebar component

◆ Registry ecosystem

CLI now supports Next.js, Remix, Vite, Laravel & monorepos. Spawned derivative libs like Motion-Primitives and Magic UI. Vercel v0 AI-generated components boosted adoption further.

htmx Overtakes React as #1

Stars added in 2024 – framework popularity by community momentum

htmx #1 – HTML-first wins

Extends HTML with `hx-*` attributes for AJAX, WebSockets without writing JavaScript. Rose from #2 in 2023. Ideal for server-driven apps and progressive enhancement.

React 19 – framework spec era

Launched Dec 2024 after 3 years. Server Components, Server Functions, Custom Elements support. React is "a specification for frameworks" (Robin Wieruch). Compiler still in progress.

Svelte 5 – runes system

Explicit reactive state via "runes." Holds highest positive opinion in State of JS survey. Svelte's clarity is resonating with developers tired of implicit reactivity.

React Ecosystem: shadcn, Excalidraw, Payload Lead

Top 5 React-ecosystem projects by stars added in 2024

#1	shadcn/ui	+38.0k
#2	Excalidraw	+27.0k
#3	Payload	+14.4k

React 19: Long-awaited release Server Components & Server Functions ship after 3 years. New hooks, form actions, and full Custom Elements support (web components) in production React.

React -- Framework Specification Multiple frameworks (Next.js, Remix) now interpret React's primitives differently. React is evolving from a UI library into "a spec for frameworks." Client-only usage remains fully supported.

React Compiler Still in active development. Goal: automatic memoization and improved DX without manual useMemo/useCallback optimization.

Vue Ecosystem Flourishes: Nuxt, PrimeVue, Slidev

Top 5 Vue-ecosystem projects by stars added in 2024

#1	Nuxt	+6.2k
#2	PrimeVue	+5.4k

Vue 3.5: Reactivity Rework Lighter alien-signals reactivity approach has landed in main. Reduces overhead and improves perf for computed properties and reactive state at scale.

UI Library Wave PrimeVue (+5.4k) and shadcn-vue (+4.1k) signal growing confidence in Vue as a UI platform. The shadcn pattern is spreading across frameworks.

Ecosystem Confidence Nuxt core lead Daniel Roe highlighted active release cycle and regular performance improvements. Vue 3.5 + strong library ecosystem signals maturity.

AI Tools, Desktop Apps & Browser Innovation

Three forces reshaping the JavaScript ecosystem beyond frameworks

AI-Powered Projects

n8n	+17.8k
Flowise	+14.5k
Supabase	+14.5k
AFFiNE	+19.6k

4 of top 10 overall have significant AI capabilities. Workflow automation (n8n) + LLM orchestration (Flowise) are the dominant patterns. AI integration is now table stakes.

Desktop & Native

Tauri	+15.9k
Bruno (API IDE)	+18.7k

Tauri continued its push for lighter desktop/mobile apps built with web tech – Rust backend, web frontend. Bruno challenges Postman as an open-source API testing IDE. Dev tools go native.

What 2024 Tells Us About JavaScript's Future

- 01

Component ownership beats imports
shadcn/ui's copy-paste model – developers own and customize the code – sustained 38k stars for a second year (77.5k total). The shift away from black-box npm installs is real and accelerating.
- 02

HTML-first is serious architecture
htmx overtook React as the #1 front-end framework by stars added (+16.8k vs +14.2k). Server-driven, low-JavaScript architectures are validated beyond hobbyist interest.
- 03

React is becoming a framework specification
React 19 Server Components and Server Functions mean Next.js, Remix, and others now interpret React primitives differently. React is less "a library you use" and more "a spec your framework implements."
