2024

Total: 77.5k | Created Jan 2023

Key 2024 Additions

Charts

Powered by Recharts — production-ready chart components

Themes

CSS variable-based theme generation system

Blocks

Full layout collections for typical web-app patterns

Sidebar

New responsive sidebar component

⚙️ CLI v2

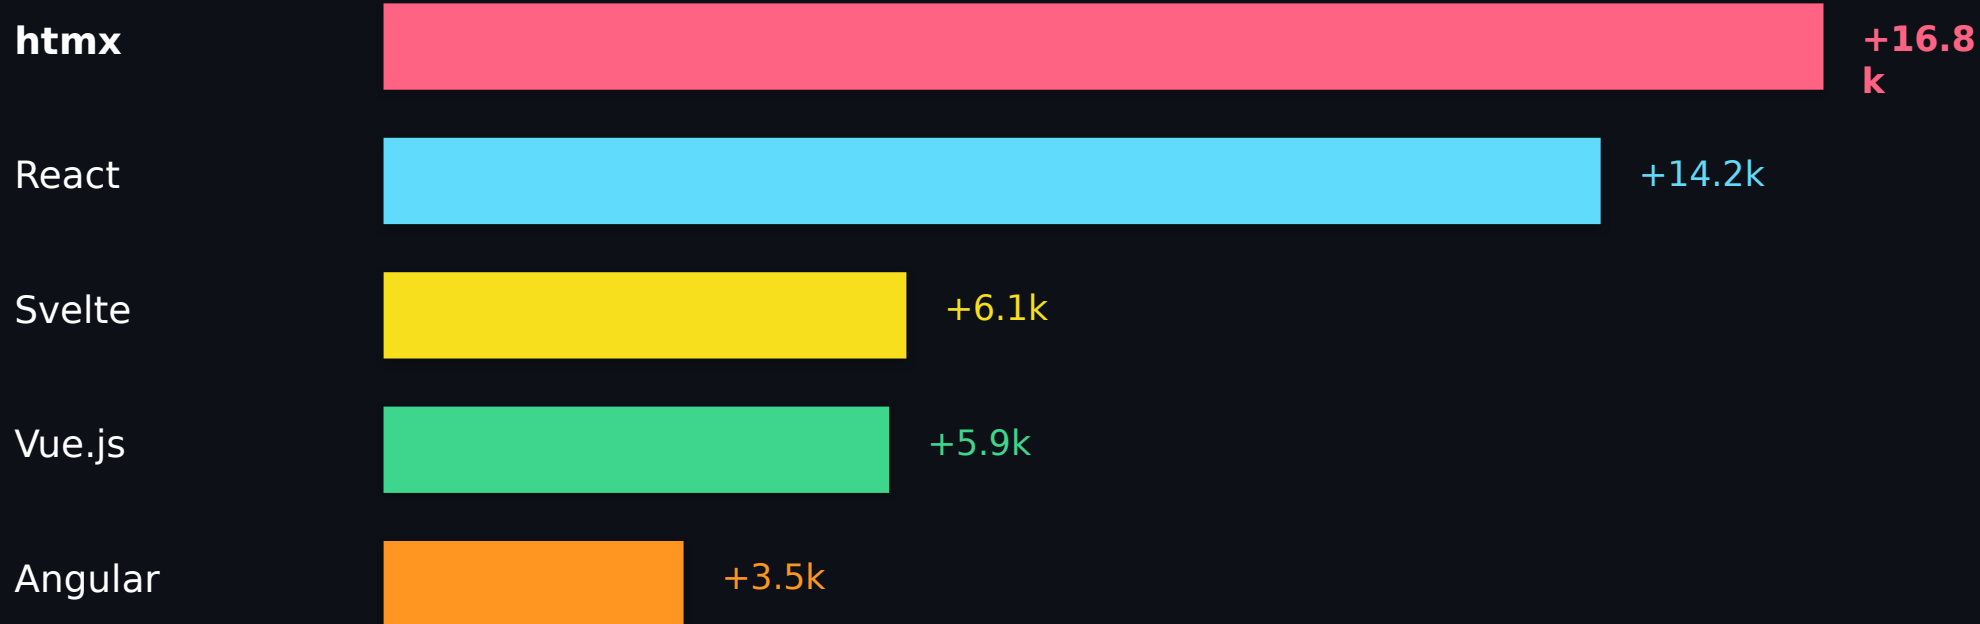

Multi-framework support: Next.js, Remix, Vite, Laravel, monorepos

v0 Integration

AI-generated components via Vercel's v0 service

CLI now supports registry-based installs → ecosystem of derivative libraries: Motion-Primitives, Magic UI

htmx Overtakes React as #1 Front-end Framework by Stars Added

**htmx #1:**

Extends HTML with hx-* attributes — server-driven apps, zero JavaScript required

React 19:

Server Components, Server Functions, Custom Elements — launched Dec 2024 after 3 years

Svelte 5:

Introduced 'runes' for explicit reactive state — highest positive opinion in State of JS survey

React Ecosystem: shadcn/ui, Excalidraw, and Payload Dominate

+38.0k

shadcn/ui

Copy-paste component library

+27.0k

Excalidraw

Virtual whiteboard for diagrams

+14.4k

Payload

Fullstack Next.js CMS/framework

+13.2k

Magic UI

Animated UI component library

+12.1k

Next.js

Hybrid SSR/SSG React framework

React 19 & The Framework Specification Shift

React 19 (Dec 2024) introduces Server Components, Server Functions, web component support, new hooks, and form actions. Robin Wieruch: React is evolving from a library into 'a specification for frameworks' — Next.js, Remix interpret its primitives differently. React Compiler continues development to optimize performance and developer experience automatically.

Vue Ecosystem Flourishes: Nuxt, PrimeVue, and Slidev Lead Growth

Vue 3.5 Highlights

Reactivity system reworked with the lighter alien-signals approach (already in main branch).
Wave of high-quality UI libraries (PrimeVue, shadcn-vue) signals growing ecosystem confidence.
Daniel Roe (Nuxt core lead): active release cycle with regular performance improvements in Nuxt.

AI Tools, Desktop Apps, and Browser-Based Innovation Shape 2024

AI-Powered Tools

n8n

+17.0k

Fair-code workflow automation with native AI integration

Flowise

+14.5k

Drag & drop UI for building custom LLM flows

AFFiNE

+19.6k

Knowledge base with AI: Notion + Miro capabilities

Desktop & Mobile

Tauri

+15.9k

Lighter desktop/mobile apps using web-tech frontend

Browser Innovation

PGlite

Full Postgres database compiled to WebAssembly in the browser

WebVM

Virtual machine running entirely in the browser tab

BaaS / Backend

Supabase

+14.5k

Open-source Firebase alternative — auth, DB, storage

What 2024 Tells Us About JavaScript's Future

01

Component Ownership Wins

shadcn/ui's copy-paste model (77.5k) outpaces import-based libraries — expect more registry-driven component ecosystems in 2025.

02

HTML-First Is Serious

htmx beating React in stars validates server-driven, low-JS architectures as a mainstream choice, not just a contrarian opinion.

03

React = Framework Specification

React 19's Server Components & Functions redefine React as a spec multiple frameworks interpret — align on which framework, not just React.

04

AI Integration Is Table Stakes

4 of the top 10 projects have native AI capabilities. Evaluate AI-native tooling for workflows, backends, and component generation.

05

Vue's Ecosystem Is Maturing

alien-signals reactivity + PrimeVue + shadcn-vue signal a confident Vue 3.5 ecosystem ready for enterprise adoption.
